Item 2. DISSENTERS' RIGHT OF APPRAISAL

There are no matters to be taken up during the annual stockholders' meeting with respect to which the law allows the exercise of appraisal right by any dissenting stockholder. The Corporation Code limits the exercise of the appraisal right to the following instances:

- a. In case any amendment to the articles of incorporation has the effect of changing or restricting the rights of any stockholder or class of shares, or of authorizing preferences in respect superior to those of outstanding shares of any class, or of extending or shortening the term of corporate existence (Section 81);
- b. In case of the sale, lease, exchange, transfer, mortgage, pledge or other disposition of all or substantially all of the corporate property and assets (Section 81);
- c. In case of merger or consolidation (Section 81);
- d. In case of investments in another corporation, business or purpose (Section 42).

The appraisal right may be exercised by making a written demand on the corporation within thirty (30) days after the date on which the vote was taken for payment of the fair value of his shares; provided, that failure to make the demand within such period shall be deemed a waiver of the appraisal right. If the proposed corporate action is implemented or effected, the corporation shall pay to such stockholder, upon surrender of the certificate(s) of stock representing his shares, the fair value thereof as of the day prior to the date on which the vote was taken, excluding any appreciation or depreciation in anticipation of such corporate action.

If within a period of sixty (60) days from the date the corporate action was approved by the stockholders, the withdrawing stockholder and the corporation cannot agree on the fair value of the shares, it shall be determined and appraised by three (3) disinterested persons, one of whom shall be

named by the stockholder, another by the corporation, and the third by the two thus chosen. The findings of the majority of the appraisers shall be final, and their award shall be paid by the corporation within thirty (30) days after such award is made; Provided, That no payment shall be made to any dissenting stockholder unless the corporation has unrestricted retained earnings in its books to cover such payment; and Provided, further, That upon payment by the corporation of the agreed or awarded price, the stockholders shall forthwith transfer his shares to the corporation.

The appraisal right shall be exercised in accordance with Title X of the Corporation Code.

Item 3. INTEREST OF CERTAIN PERSONS IN OR OPPOSITION TO MATTERS TO BE ACTED UPON

There is no substantial interest, direct or indirect, by security holdings or otherwise, of each of the following persons in any matter to be acted upon, other than the election to office:

1. Each person who has been a director or officer of the registrant at any time since the beginning of the last fiscal year;
2. Each nominee for election as a director of the registrant;
3. Each associate of any of the foregoing persons.

There is no director of the registrant who has informed the company in writing that he intends to oppose any action to be taken by the registrant at the meeting and indicated the action which he intends to oppose.

B. CONTROL AND COMPENSATION INFORMATION

Item 4. VOTING SECURITIES AND PRINCIPAL HOLDERS THEREOF

Voting Securities

As of 30 September 2018, 1,528,474,000 Common shares are outstanding, and are entitled to be represented and vote at the Annual Stockholders' Meeting. Each share is entitled to one vote.

Record Date

Only stockholders of record as of **26 October 2018** shall be entitled to notice and vote at the meeting.

Manner of Voting

The By-Laws of the Company provides that every stockholder shall be entitled to vote in person or by proxy, for each share of stock held by him which has voting power upon the matter in question. The votes for the election of directors, and, except upon demand by any stockholder, the votes upon any question before the meeting, except with respect to the procedural questions determined by the chairman of the meeting, shall be by viva voce or show of hands.

Article II Section 8 of the By-Laws of the Company provides that the Directors shall be elected by plurality vote at the annual meeting of the stockholders for that year at which a quorum is present. At each election for directors every stockholder shall have the right to vote, in person or by proxy, the number of shares owned by him for as many persons as there are directors to be elected, or to cumulate his votes by giving one candidate as many votes as the number of such directors multiplied by the number of his share shall equal, or by distributing such votes in the same principle among any number of candidates.

MANAGEMENT REPORT
MANAGEMENT DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

1. Business Development

(a) Form and year of organization

Bright Kindle Resources & Investments, Inc. (formerly Bankard, Inc.) (the Company) was incorporated in the Philippines on December 4, 1981 as a credit card corporation. On March 21, 1995, the Company listed its shares with the Philippine Stock Exchange, Inc. Prior to December 27, 2013, the Company is a subsidiary of Rizal Commercial Banking Corporation (RCBC).

On October 18, 2013, the Board of Directors (BOD) of RCBC approved the sale of its 89.98% collective stake in the Company. In order to consummate the sale, a block sale was made between RCBC and RYM Business Management Corp. (the Parent) together with other investors. As a result, RYM acquired 81.77% interest in the Company.

In view of the change in its ownership and management, the Company has changed the nature of its principal business. Effective December 16, 2013, the Company has ceased acting as the administrator of RCBC's credit card business.

In November 2013, the Company's BOD approved the amendment in the Company's Articles of Incorporation to change its corporate name to Bright Kindle Resources & Investments, Inc. and primary business purpose to a holding Company. This matter was submitted and approved by the shareholders during the Special Stockholders' meeting held on December 9, 2013. The Philippine Securities and Exchange Commission (SEC) approved the Company's Amended Articles of Incorporation on January 30, 2014.

Consequently, the Company is now engaged in the purchase, exchange, assignment, and hold investments and all properties, including, but not limited to, bonds, debentures, promissory notes, shares of stocks, or other securities without however engaging in the business of an investment Company under the Investment Company Act or a finance company or a broker or dealer in securities.

The Company's registered office is located at 16th Floor, Citibank Tower 8741 Paseo de Roxas, Makati City.

(b) Any bankruptcy, receivership or similar proceeding?

There were no bankruptcy, receivership or similar proceedings for the Corporation.

(c) Any material reclassification, merger, consolidation, or purchase or sale of a significant amount of assets not in the ordinary course of business?

RCBC sold its collective stake of 89.98% in the Corporation in favor of RYM Business Management Corp. and other investors. As a result, it transferred all or substantially all of its assets and certain liabilities to RCBC and RBSC (refer to Note 1 of the 2015 Audited Financial Statements).

2. Business of Issuer

(a) Description of Registrant

(i) Principal Products or Services

From 2007 to December 2013, the Corporation was a credit card servicing company whose primary customer was Rizal Commercial Banking Corporation (RCBC) and indirectly the RCBC Bankard cardholders, to whom the cards are issued, and its accredited merchants. As a servicing entity, the Corporation provided RCBC marketing, selling and distribution assistance, technical, collection services and all transaction processing requirements arising from its credit cardholder and merchant transactions.

On October 18, 2013, the Board of Directors of RCBC approved the sale of its 89.98% collective ownership in Bankard, Inc. to RYM Business Management Corporation and other investors through Philippine Business Bank, Inc. – Trust and Investment Center. The sale of shares was consummated on December 27, 2013. In view of the foregoing, RCBC's credit card operations were transferred to a related party, RBSC, and the Corporation ceased to operate any credit card related business as of December 16, 2013.

Considering the sale, the Company changed its primary purpose and now engages in the purchase, exchange, assignment, gift or otherwise, and hold, own and use for investment or otherwise, and sell, assign, transfer, exchange, lease, let, develop, mortgage, pledge, deal in and with and otherwise operate, use and dispose of, any and all properties of every kind and description and wherever situated, as and to the extent permitted by law, including, but not limited to, bonds, debentures, promissory notes, shares of capital stock, or other securities and obligations, created, negotiated or issued by any corporation, association, or other entity, foreign or domestic and while the owner, holder, or possessor thereof, to exercise all the rights and powers, and privileges of ownership or any other interest therein, including the right to receive, collect and dispose of, any and all dividends, interests and income, derived therefrom, and the right to vote on any proprietary or other interest, on any shares of capital stock, and upon any bonds, debentures, or other securities, having voting power, so owned or held, without however engaging in the business of an investment company under the Investment Company Act or a finance company or a broker or dealer in securities of stocks.

Target Market/Segments of Business

The Corporation was previously engaged in providing services to credit cardholders of RCBC and targeted cardable customers across all segments. The company tapped merchants in different geographical locations in the country in order to acquire transactions of both credit and debit card transactions. As a service entity, Bankard provides business process outsourcing to interested clients given its expertise in credit card payment processing.

At present, the Corporation is looking for viable investments which will provide attractive returns to its shareholders.

Accredited Establishments

None.

(ii) Foreign Sales

None.

(iii) Distribution methods of the products or services

None.

(iv) Status of any publicly-announced new product or service

None.

(v) Competition

None.

(vi) Disclose dependencies on single or limited number of suppliers for essential raw materials, energy or other items

Inasmuch as the Corporation ceased to provide credit card services and considering the current business of the Corporation as a holding company, it will have very limited need for raw materials. The Company is not dependent on single or limited number of suppliers and it sources materials from various suppliers as necessary.

(vii) Disclose dependencies on single customer

Prior to the block sale last 27 December 2013, the Corporation only provided services to RCBC. The service fee derived from servicing the principal client, RCBC, was the main revenue source of the Corporation.

Now, as a holding company, the Corporation is no longer dependent on a single customer/client.

(viii) Transactions with and/or dependence on related parties

Refer to note 13 of the Audited Financial Statements.

(ix) Summarize principal terms & expiration dates of all patents, trademarks, copyrights, licenses, franchises, concessions & royalty agreements

Prior to sale last 27 December 2013, the Corporation has licenses from MasterCard International, Visa International, JCB International Co. and UnionPay International which allows the company to issue credit cards and acquire transactions of merchants carrying said brands.

In view of the block sale and change in ownership and management, the Corporation has terminated its licenses from MasterCard, Visa, JCB and UPI.

(x) Need for any government approval of principal products or services

The Corporation has no principal products or services that need government approval.

(xi) Effect of existing or probable government regulations on the business

The Corporation's business is not affected by existing or probable government regulations.

(xii) Indicate amount spent on research & development

The Corporation did not incur any research and development costs from 2012 to 2015.

(xiii) Cost & effects of compliance with environmental laws

The Corporation intends to continue the implementation of cost-efficient methods to save paper and encourage recycling within the organization.

(xiv) State the number of the registrant's present employees

Employees

Starting 2014, aside from the key management officers, all of the Corporation's personnel performing the Company's daily operations are being outsourced

(xv) Discuss the major risk/s involved in each of the businesses of the company. Include a disclosure of the procedures being undertaken to identify, assess & manage such risks

Equity Price Risk

Equity price risk is the risk that the fair values of equities decrease as a result of changes in the levels of the equity indices and the values of individual stocks. The Company's exposure to equity price risk relates primarily to its AFS investments listed in the PSE classified under financial assets at OCI.

The Company's policy is to maintain the risk to an acceptable level. Movement of share price is monitored regularly to determine impact on the Company's financial position.

Credit Risk

Credit risk is the risk of loss that may arise on outstanding financial instruments should a counterparty default on its obligation. The Company's exposure to credit risk arises primarily from cash (excluding cash on hand), loans and receivables, and AFS financial assets.

Exposure to Credit Risk. The carrying amount of cash, receivables, and AFS financial assets represent the Company's maximum exposure to credit risk in relation to financial assets.

Credit Quality. The credit quality of the Company's financial assets that are neither past due nor impaired are considered to be of high grade and expected to be collectible without incurring any credit losses.

High grade financial assets are those financial assets from counterparties with good financial condition and with relatively low defaults.

(b) Additional Requirements as to Certain Issues or Issuers

None.

Item 2. DESCRIPTION OF PROPERTY

The Company acquired a Condominium Unit at Unit 16 B Citibank Tower, 8741 Paseo de Roxas, Makati City last August 2014 which is being used as office.

Item 3. LEGAL PROCEEDINGS

All legal proceedings involving the Corporation were transferred to RBSC.

Item 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

Item 6. COMPLIANCE WITH LEADING PRACTICE ON CORPORATE GOVERNANCE

Governance Statement

As a publicly-listed Philippine corporation, Bright Kindle Resources & Investments Inc. (formerly Bankard Inc.) (“BKR”) conforms to the corporate governance rules, requirements, and regulations of the Philippine (SEC) and the Philippine Stock Exchange (PSE). BKR submitted its I-ACGR in 2018 which is used as a tool to disclose Publicly-Listed Companies’ compliance/non-compliance with the recommendations provided under the Code of Corporate Governance for Publicly-Listed Companies, which follows the “comply or explain” approach, which is used in harmonizing the corporate governance reportorial requirements of the SEC and the PSE.

BKR is committed to the highest standards of corporate governance and continues to benchmark its procedures with recognized local and international best practices. The Board of Directors (BOD) and Management commit themselves to the principles and best practices of good governance based on its Revised Manual on Corporate Governance. The BOD and Management believe that good governance is a necessary component of what constitutes sound strategic business management, and therefore, take every effort necessary to create awareness thereof within the organization. To ensure constant improvement, BKR checks recent developments in corporate governance to elevate the Company’s corporate governance structures, processes, and practices.

BKR complies with the Code of Corporate Governance of the SEC and Corporate Governance Guidelines and listing rules of the PSE, and endeavours to raise its corporate governance practices in line with local and international best practices.

Revenue

The Company is not yet operating, hence, revenues generated mainly comes from interest on bank deposits. The interest income for the period is lower by P0.11 million compared with same period last year, due to lower cash balance this period as compared last year.

General and administrative expenses

a. Depreciation

The company's service vehicle has been fully depreciated last February 2018. In effect, recognized depreciation for the nine months period ended September 30, 2018 is lower by P0.09 million or 5.82% compared with same period last year.

b. Outside services

More outsourced services were incurred last year than this year resulting to decline in this account by P0.60 million or 55.63%.

c. Taxes and licenses

Last year, the Company paid SEC for tender offer filing fee, resulting to higher taxes and licenses incurred compared with same period this year. No significant taxes and license fees were incurred during the period.

d. *Communication, light and water*

Communication, light and water expense this period is higher by ₱0.08 million or 69.78% compared with same period last year. The increase is attributable to occupancy of the Company's condo unit, starting early this year (this was idle last year).

e. *Director's fees*

Director's fee last year is higher than this year due to payments to board of directors for board meetings.

f. *Others*

Other general and administrative expenses this period is lower by ₱0.21 million or 46.17% compared with same period last year, due to payment for PCD maintenance fee last year.

Share in net income of an associate

Net income of Marcventures Holdings, Inc. (MARC) for the nine months period ended September 30, 2018 is lower compared with same period last year. Consequently, the company's share in the net income of MARC has declined from ₱58.76 million last year to ₱4.30 million this year. Also, the Company's equity interest in MARC has reduced to 19.9% this year (from 32.9% last year), as an effect of the merger of MARC, BHI and APMPC (see Note 1).

Three months ended September 30, 2018 compared with three months ended September 30, 2017

Revenue

The Company is not yet operating, hence, revenues generated mainly comes from interest on bank deposits. The interest income for the period is lower by ₱0.10 million compared with same period last year, due to lower cash balance this period as compared last year.

General and administrative expenses

a. *Depreciation*

The company's service vehicle has been fully depreciated last February 2018. In effect, recognized depreciation for the three months period ended September 30, 2018 is lower by ₱0.13 million or 21.35% compared with same period last year.

b. *Others*

Other general and administrative expenses this period is lower by ₱0.16 million or 63.71% compared with same period last year, due to payment for PCD maintenance fee last year.

Share in net income of an associate

Net income of Marcventures Holdings, Inc. (MARC) for the three months ended September 30, 2018 is lower compared with same period last year. Consequently, the company's share in the net income of MARC has declined from ₱50.81 million last year to ₱2.31 million this year. Also, the Company's equity interest in MARC has reduced to 19.9% this year (from 32.9% last year), as an effect of the merger of MARC, BHI and APMPC (see Note 1).

Statements of Financial Position

The significant changes in the statement of financial position accounts during the nine months ended September 30, 2018 compared with the December 31, 2017 level are as follows:

• *Cash*

The Company's cash decreased by ₱0.22 million or 35.39%. During the period, it has collected ₱2.42 million of its receivables from related parties. Payments of operating expenses has caused the decline in the company's cash balance.

- *Due from related parties*
The decrease in this account is mainly due to collection of receivables from related parties during the period.
- *Other current assets*
The increase in other current assets of ₱0.64 million or 8.06% is mainly due to amortization of Deferred input VAT of ₱0.62 million (*see Deferred input VAT*). The movement is also caused by receipt of the construction deposit amounting to ₱0.25 million. The company also paid insurance premiums which resulted to increase in this account.
- *Property and equipment*
Decrease in property and equipment by ₱1.53 million is mainly due to recognition of depreciation for the period.
- *Investment in an associate*
The increase in investment in an associate by ₱4.30 million pertains to recognition of share in the net income of MARC.
- *Deferred input VAT*
Movement in this account is attributable to amortization of input VAT for the period.
- *Retained earnings*
The increase in retained earnings by ₱0.18 million pertains to the net income during the nine months period ended September 30, 2018.

Statements of Cash Flows

Net cash used in operating activities for the nine months ended September 30, 2018 amounts to ₱0.22 million, while the cash provided by operating activities amounted to ₱44.35 million in same period last year.

Significant movement in cash during the period is attributed to collection of ₱2.42 million from related parties and payments of the company's operating expenses.

PART I - BUSINESS AND GENERAL INFORMATION

Item 1. BUSINESS

A. Description of Business

1. Business Development

(a) Form and year of organization

Bright Kindle Resources & Investments, Inc. (formerly Bankard, Inc.) (the Company) was incorporated in the Philippines on December 4, 1981 as a credit card corporation. On March 21, 1995, the Company listed its shares with the Philippine Stock Exchange, Inc. Prior to December 27, 2013, the Company is a subsidiary of Rizal Commercial Banking Corporation (RCBC).

On October 18, 2013, the Board of Directors (BOD) of RCBC approved the sale of its 89.98% collective stake in the Company. In order to consummate the sale, a block sale was made between RCBC and RYM Business Management Corp. (the Parent) together with other investors. As a result, RYM acquired 81.77% interest in the Company.

In view of the change in its ownership and management, the Company has changed the nature of its principal business. Effective December 16, 2013, the Company has ceased acting as the administrator of RCBC's credit card business.

In November 2013, the Company's BOD approved the amendment in the Company's Articles of Incorporation to change its corporate name to Bright Kindle Resources & Investments, Inc. and primary business purpose to a holding Company. This matter was submitted and approved by the shareholders during the Special Stockholders' meeting held on December 9, 2013. The Philippine Securities and Exchange Commission (SEC) approved the Company's Amended Articles of Incorporation on January 30, 2014. Assets and liabilities related to the Company's credit card servicing operation were transferred to RCBC Bankard Services Corporation (RBSC) and RCBC on December 12, 2013. Effective December 16, 2013, the Company ceased acting as the administrator of RCBC's credit card business.

Consequently, the Company is now engaged in the purchase, exchange, assignment, and hold investments and all properties, including, but not limited to, bonds, debentures, promissory notes, shares of stocks, or other securities without however engaging in the business of an investment Company under the Investment Company Act or a finance company or a broker or dealer in securities.

The Company's registered office is located at 16th Floor, Citibank Tower 8741 Paseo de Roxas, Makati City.

(b) Any bankruptcy, receivership or similar proceeding?

There were no bankruptcy, receivership or similar proceedings for the Company.

(c) Any material reclassification, merger, consolidation, or purchase or sale of a significant amount of assets not in the ordinary course of business?

In 2014, RCBC sold its collective stake of 89.98% in the Company in favor of RYM Business Management Corp. (RYM) and other investors. As a result, it transferred all or substantially all of its assets and certain liabilities to RCBC and RCBC Bankard Service Corporation (RBSC) (refer to Note 1 of the 2015 Audited Financial Statements).

2. Business of Issuer

(a) Description of Registrant

(i) *Principal Products or Services*

From 2007 to December 2013, the Company was a credit card servicing company whose primary customer was RCBC and indirectly the RCBC Bankard cardholders, to whom the cards are issued, and its accredited merchants. As a servicing entity, the Corporation provided RCBC marketing, selling and distribution assistance, technical, collection services and all transaction processing requirements arising from its credit cardholder and merchant transactions.

On October 18, 2013, the Board of Directors of RCBC approved the sale of its 89.98% collective ownership in Bankard, Inc. to RYM and other investors through Philippine Business Bank, Inc. – Trust and Investment Center (PBB). The sale of shares was consummated on December 27, 2013. In view of the foregoing, RCBC's credit card operations were transferred to a related party, RBSC, and the Company ceased to operate any credit card related business as of December 16, 2013.

Considering the sale, the Company changed its primary purpose and now engages in the purchase, exchange, assignment, gift or otherwise, and hold, own and use for investment or otherwise, and sell, assign, transfer, exchange, lease, let, develop, mortgage, pledge, deal in and with and otherwise operate, use and dispose of, any and all properties of every kind and description and wherever situated, as and to the extent permitted by law, including, but not limited to, bonds, debentures, promissory notes, shares of capital stock, or other securities and obligations, created, negotiated or issued by any corporation, association, or other entity, foreign or domestic and while the owner, holder, or possessor thereof, to exercise all the rights and powers, and privileges of ownership or any other interest therein, including the right to receive, collect and dispose of, any and all dividends, interests and income, derived therefrom, and the right to vote on any proprietary or other interest, on any shares of capital stock, and upon any bonds, debentures, or other securities, having voting power, so owned or held, without however engaging in the business of an investment company under the Investment Company Act or a finance company or a broker or dealer in securities of stocks.

Target Market/Segments of Business

The Company was previously engaged in providing services to credit cardholders of RCBC and targeted cardable customers across all segments. The Company tapped merchants in different geographical locations in the country in order to acquire transactions of both credit and debit card transactions. As a service entity, Bankard provides business process outsourcing to interested clients given its expertise in credit card payment processing.

At present, the Company holds 600 million shares or 20.21% of Marcventures Holdings Inc. (MARC). The Company is continuously looking for other viable investments which will provide attractive returns to its shareholders.

(ii) Foreign Sales

None.

(iii) Distribution methods of the products or services

None.

(iv) Status of any publicly-announced new product or service

None.

(v) Competition

None.

(vi) Disclose dependencies on single or limited number of suppliers for essential raw materials, energy or other items

Inasmuch as the Company ceased to provide credit card services and considering the current business of the Company as a holding company, it will have very limited need for raw materials. The Company is not dependent on single or limited number of suppliers and it sources materials from various suppliers as necessary.

Disclose dependencies on single customer

Prior to the block sale last December 27, 2013, the Company only provided services to RCBC. The service fee derived from servicing the principal client, RCBC, was the main revenue source of the Company.

Now, as a holding company, the Company is no longer dependent on a single customer/client.

Transactions with and/or dependence on related parties

Refer to note 13 of the Audited Financial Statements.

(ix) Summarize principal terms & expiration dates of all patents, trademarks, copyrights, licenses, franchises, concessions & royalty agreements

Prior to the sale last December 27, 2013, the Company has licenses from MasterCard International, Visa International, JCB International Co. and Union Pay International which allows the company to issue credit cards and acquire transactions of merchants carrying said brands.

In view of the block sale and change in ownership and management, the Company has terminated its licenses from MasterCard, Visa, JCB and UPI.

(x) Need for any government approval of principal products or services

The Company has no principal products or services that needs government approval.

(xi) Effect of existing or probable government regulations on the business

The Company's business is not affected by existing or probable government regulations.

(xii) Indicate amount spent on research & development

The Company did not incur any research and development costs from 2012 to 2017.

(xiii) Cost & effects of compliance with environmental laws

The Company intends to continue the implementation of cost-efficient methods to save paper and encourage recycling within the organization.

(xiv) State the number of the registrant's present employees

Employees

Starting 2014, aside from the key management officers, all of the Company's personnel performing the daily operations are being seconded.

(xv) Discuss the major risk/s involved in each of the businesses of the company. Include a disclosure of the procedures being undertaken to identify, assess & manage such risks

Equity Price Risk

Equity price risk is the risk that the fair values of equities decrease as a result of changes in the levels of the equity indices and the values of individual stocks. The Company is not exposed to price risk.

Credit Risk

Credit risk is the risk of loss that may arise on outstanding financial instruments should a counterparty default on its obligation. The Company's exposure to credit risk arises primarily from cash (excluding cash on hand), loans and receivables, and AFS financial assets.

Exposure to Credit Risk. The carrying amount of cash in banks, receivables, and AFS Investments represent the Company's maximum exposure to credit risk in relation to financial assets.

Credit Quality. The credit quality of the Company's financial assets that are neither past due nor impaired are considered to be of high grade and expected to be collectible without incurring any credit losses.

High grade financial assets are those financial assets from counterparties with good financial condition and with relatively low defaults.

Item 2. DESCRIPTION OF PROPERTY

The Company acquired a Condominium Unit at Unit 16 B Citibank Tower, 8741 Paseo de Roxas, Makati City last August 2014 to be utilized as the Company's office space.

The unit's book value amounted to ₱46.6 million as of December 31, 2017 (see note 6 of the AFS)

Item 3. LEGAL PROCEEDINGS

Please refer to note 15 of the Audited Financial Statements. The case referred to in the note 15 was filed in the Los Angeles Superior Court, California, USA.

Except for the above, all legal proceeding involving the Company were transferred to RBSC.

Item 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

In 2017, the following matters were submitted for approval of Shareholders:

1. Approval of Minutes of the previous meeting
2. Approval of Management Report and Audited Financial Statements ending December 31, 2016
3. Ratification of Management's Acts
4. Election of Directors
5. Appointment of External Auditor

PART II –OPERATIONAL AND FINANCIAL INFORMATION

REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANT ON AN ENGAGEMENT TO COMPILE FINANCIAL STATEMENTS

The Board of Directors and Stockholders
Bright Kindle Resources & Investments, Inc.
16th Floor Citibank Tower
8741 Paseo de Roxas, Makati City

Report on the Financial Statements

I have compiled the accompanying financial statements of Bright Kindle Resources & Investments, Inc. (the Company), a subsidiary of RYM Business Management Corp., which comprise the statement of financial position of as at December 31, 2017 and 2016, and the statements of comprehensive income, statements of changes in equity, and statements of cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies.

Based on the information provided by the management, I have applied my expertise in accounting and financial reporting to assist the Company in the preparation and presentation of these financial statements in accordance with Philippine Financial Reporting Standards (PFRS). I have complied with relevant ethical requirements, including principles of integrity, objectivity, professional competence and due care.

Since a compilation engagement is not an assurance engagement, I am not required to verify the accuracy or completeness of the information provided by the management for compilation. I have not conducted an audit nor a review of the accompanying financial statements. Accordingly, I do not express an audit opinion and provide any assurance, or a review conclusion on whether the financial statements are in accordance with the PFRS.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements, as well as the accuracy and completeness of the information, in accordance with PFRS, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Practitioner's Responsibility

My responsibility is to perform this compilation engagement in accordance with Philippine Standards on Related Services 4410 (Revised) – *Compilation Engagements*, issued by Auditing Standards and Practices Council of the Philippines.

The objective of this compilation engagement is to assist the management in presenting financial information in the form of financial statements without undertaking to obtain or provide any assurance that there are no material modifications that should be made to the financial statements.

Practitioner's Independence

I am independent and had no direct financial interest with respect to the Company, in all material aspects of this compilation engagement, during the year ended December 31, 2017.

INDEPENDENT AUDITORS' REPORT

The Stockholders and the Board of Directors
Bright Kindle Resources & Investments, Inc.
16th Floor Citibank Tower
8741 Paseo de Roxas, Makati City

Opinion

We have audited the accompanying financial statements of Bright Kindle Resources & Investments, Inc. (the Company), a subsidiary of RYM Business Management Corp., which comprise the statements of financial position as at December 31, 2017 and 2016, and the statements of comprehensive income, statements of changes in equity and statements of cash flows for the years ended December 31, 2017, 2016 and 2015, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2017 and 2016, and its financial performance and its cash flows for the years ended December 31, 2017, 2016 and 2015 in accordance with Philippine Financial Reporting Standards (PFRS).

Basis for Opinion

We conducted our audits in accordance with Philippine Standards on Auditing (PSA). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics for Professional Accountants in the Philippines (Code of Ethics) together with the ethical requirements that are relevant to our audits of the financial statements in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

We draw attention to Note 1 to the financial statements which discusses that Marcventures Mining and Development Corporation (MMDC), a subsidiary of the Company's associate, Marcventures Holdings, Inc., received an order from the Department of Environment and Natural Resources on February 13, 2017 dated February 8, 2017 cancelling its Mineral Production Sharing Agreement No. 016-93-X (MPSA). The management of the Company believes that the order has no basis and the outcome of legal actions taken will not have a material adverse effect on MMDC's operations, as described in Note 1 to the financial statements. MMDC has continued its mining operations in the areas covered by the MPSA.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Determination of Indicator of Impairment of Investment in an Associate

Investment in an associate is accounted for using the equity method in accordance with PAS 28, *Investment in Associates and Joint Ventures*. The Company is required to assess at each reporting date whether there is any objective evidence that the investment is impaired. This matter is significant to our audit because investment in associate represents 96% of the Company's total assets.

We have reviewed management's procedures in determining indicators of impairment. Further disclosures are included in Note 3, *Significant Judgments, Estimates and Assumptions* and Note 7, *Investment in an Associate*.

Other Information

Management is responsible for the other information. The other information comprises the information included in the SEC Form 20-IS (Definitive Information Statement), SEC Form 17-A (Annual Report) and Annual Report distributed to stockholders for the year ended December 31, 2017, but does not include the financial statements and our Auditors' report thereon. The SEC Form 20-IS, SEC Form 17-A and Annual Report distributed to stockholders for the year ended December 31, 2017 are expected to be made available to us after the date of this Auditors' report.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audits of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audits or otherwise appears to be materially misstated.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with PFRS, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, these could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with PSA, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audits.

- 4 -

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditors' report is Belinda B. Fernando.

BRIGHT KINDLE RESOURCES & INVESTMENTS, INC.
(A Subsidiary of RYM Business Management Corp.)

NOTES TO FINANCIAL STATEMENTS

1. Corporate Information

General Information

Bright Kindle Resources & Investments, Inc. (the Company) was incorporated and registered with the Philippine Securities and Exchange Commission (SEC) on December 4, 1981 as a credit card corporation. On March 21, 1995, the Company listed its shares with The Philippine Stock Exchange, Inc. (PSE).

On October 18, 2013, the Board of Directors (BOD) of Rizal Commercial Banking Corporation (RCBC) approved the sale of its 89.98% collective stake in the Company to RYM Business Management Corp. (the Parent Company) and other investors. The Parent Company acquired 76.56% interest in the Company.

With the change in ownership and management, the Company amended its Articles of Incorporation to change its corporate name to Bright Kindle Resources & Investments, Inc. and its primary business purpose to a holding company. The SEC approved the Company's amendments on January 30, 2014. Assets and liabilities related to the Company's credit card servicing operation were transferred to RCBC Bankard Services Corporation (RBSC) and RCBC on December 12, 2013. The Company is now engaged in dealing with all kinds of properties, including investment in bonds and shares of capital stock, without engaging in the business of an investment company under the Investment Company Act or a finance company or a broker or dealer in securities.

The Company's principal office address is at 16th Floor Citibank Tower, 8741 Paseo de Roxas, Makati City.

The financial statements of the Company as at and for the years ended December 31, 2017 and 2016 were approved and authorized for issuance by the BOD on April 10, 2018.

Investment in Marcventures Holdings, Inc. (MARC)

On December 15, 2014, the Company acquired 600,000,000 shares of MARC representing 33% equity interest for ₱2,700.0 million from Philippine Business Bank - Trust and Investment Center (PBB).

In May 2015, the Company has assessed that it has gained significant influence over MARC. Consequently, the BOD approved the reclassification of investment from AFS financial assets to investment in an associate.

On December 29, 2017, the SEC approved the application of merger of MARC, Brightgreen Resources Holdings Inc. (BHI) and Asia Pilot Mining Phils. Corp. (APMPC), with MARC as the surviving entity. MARC issued 1,125,000,000 shares to BHI and APMPC resulting to reduction of the Company's equity interest in MARC to 20%.

On February 13, 2017, Marcventures Mining and Development Corporation (MMDC), a subsidiary of MARC, received an order dated February 8, 2017 from the Bureau of Internal Revenue and Natural Resources cancelling its Mineral Production Sharing Agreement (MPSA). The management and its legal counsel believe that the order has no basis and the outcome of legal actions taken will not have a material adverse effect on the MMDC's operations.

MMDC's management will take all the necessary legal actions and exhaust all remedies available to prevent the implementation of the order. The management and its legal counsel believe that the order has no basis and the outcome of legal actions taken will be in favor of the Company. MMDC has continued its mining operations in the areas covered by the MPSA.

On February 22, 2017, MMDC has filed Notice of Appeal to Office of the President.

2. Summary of Significant Accounting Policies

Basis of Preparation

The financial statements have been prepared in compliance with Philippine Financial Reporting Standards (PFRS). This financial reporting framework includes PFRS, Philippine Accounting Standards (PAS) and Philippine Interpretations of issuances by the International Financial Reporting Interpretations Committee, issued by the Financial Reporting Standards Council and adopted by the SEC, including SEC pronouncements.

Measurement Bases

The financial statements are presented in Philippine Peso, which is also the Company's functional currency. All values represent absolute amounts except otherwise stated.

The financial statements have been prepared using the historical cost basis. Historical cost is generally based on the fair value of the consideration given in exchange for an asset and fair value of the consideration received in exchange for incurring a liability.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the transaction date. The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

The Company uses market observable data to a possible extent when measuring the fair value of an asset or a liability. Fair values are categorized into different levels in a fair value hierarchy based on inputs used in the valuation techniques as follows:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

Further information about the assumptions made in measuring fair value is included in Note 16, Financial Risk Management Objectives and Policies.

Adoption of New and Amended PFRS

The accounting policies adopted are consistent with those of the previous financial year, except for the adoption of the following new and amended PFRS which the Company adopted effective for annual periods beginning January 1, 2017:

- Amendments to PAS 7, *Statement of Cash Flows - Disclosure Initiative* – The amendments require entities to provide information that enable the users of financial statements to evaluate changes in liabilities arising from their financing activities.
- Amendments to PAS 12, *Income Taxes - Recognition of Deferred Tax Assets for Unrealized Losses* – The amendments clarify the accounting for deferred tax where an asset is measured at fair value and the fair value is below the asset's tax base (e.g. deferred tax asset related to unrealized losses on debt instruments measured at fair value), as well as certain other aspects of accounting for deferred tax assets.
- Amendment to PFRS 12, *Disclosures of Interests in Other Entities – Clarification of the Scope of the Standard* – The amendment is part of the Annual Improvements to PFRS 2014-2016 Cycle and clarifies that the disclosure requirements in PFRS 12, other than those relating to summarized financial information, apply to an entity's interest in a subsidiary, a joint venture or an associate (or a portion of its interest in a joint venture or an associate) that is classified (or included in a disposal group that is classified) as held for sale.

The adoption of the foregoing new and amended PFRS did not have any material effect on the financial statements. Additional disclosures have been included in the notes to financial statements, as applicable.

New and Amended PFRS in Issue But Not Yet Effective

Relevant new and amended PFRS which are not yet effective for the year ended December 31, 2017 and have not been applied in preparing the financial statements are summarized below.

Effective for annual periods beginning January 1, 2018:

- PFRS 9, *Financial Instruments* – This standard will replace PAS 39, *Financial Instruments Recognition and Measurement* (and all the previous versions of PFRS 9). It contains requirements for the classification and measurement of financial assets and financial liabilities, impairment, hedge accounting and derecognition.

PFRS 9 requires all recognized financial assets to be subsequently measured at amortized cost or fair value (through profit or loss or through other comprehensive income), depending on their classification by reference to the business model within which they are held and their contractual cash flow characteristics.

For financial liabilities, the most significant effect of PFRS 9 relates to cases where the fair value option is taken: the amount of change in fair value of a financial liability designated as at fair value through profit or loss that is attributable to changes in the credit risk of that liability is recognized in other comprehensive income (rather than in profit or loss), unless this creates an accounting mismatch.

For the impairment of financial assets, PFRS 9 introduces an "expected credit loss" model based on the concept of providing for expected losses at inception of a contract; it will no longer be necessary for there to be objective evidence of impairment before a credit loss is recognized.

For hedge accounting, PFRS 9 introduces a substantial overhaul allowing financial statements to better reflect how risk management activities are undertaken when hedging financial and non-financial risk exposures.

The derecognition provisions are carried over almost unchanged from PAS 39.

- PFRS 15, *Revenue from Contract with Customers* – The new standard replaces PAS 11, *Construction Contracts*, PAS 18, *Revenue* and related interpretations. It establishes a single comprehensive framework for revenue recognition to apply consistently across transactions, industries and capital markets, with a core principle (based on a five-step model to be applied to all contracts with customers), enhanced disclosures, and new or improved guidance (e.g. the point at which revenue is recognized, accounting for variable considerations, costs of fulfilling and obtaining a contract, etc.).
- Amendment to PFRS 15 - *Clarification to PFRS 15* – The amendments provide clarifications on the following topics: (a) identifying performance obligations; (b) principal versus agent considerations; and (c) licensing. The amendments also provide some transition relief for modified contracts and completed contracts.
- Amendments to PAS 28, *Investments in Associates and Joint Ventures - Measuring an Associate or Joint Venture at Fair Value* – The amendments are part of the Annual Improvements to PFRS 2014-2016 Cycle and clarify that the election to measure at fair value through profit or loss an investment in an associate or a joint venture that is held by an entity that is a venture capital organization, or other qualifying entity, is available for each investment in an associate or joint venture on an investment-by-investment basis, upon initial recognition.

Effective for annual periods beginning January 1, 2019:

- PFRS 16, *Leases* – This standard replaces PAS 17, *Leases* and its related interpretations. The most significant change introduced by the new standard is that almost all leases will be brought onto lessees' statement of financial position under a single model (except leases of less than 12 months and leases of low-value assets), eliminating the distinction between operating and finance leases. Lessor accounting, however, remains largely unchanged and the distinction between operating and finance lease is retained.

Under prevailing circumstances, the adoption of the foregoing new and amended standards is not expected to have any material effect on the financial statements of the Company. Additional disclosures will be included in the financial statements, as applicable.

Financial Assets and Liabilities

Date of Recognition. Financial assets and liabilities are recognized in the statements of financial position when the Company becomes a party to the contractual provision of a financial instrument. Financial instruments are initially recognized at fair value. In the case of regular way purchase or sale of financial asset, recognition and derecognition, as applicable, is done using trade date accounting.

Initial Recognition of Financial Instruments. Financial assets and liabilities are recognized initially at fair value, which is the fair value of the consideration given (in case of an asset) or received (in case of a liability). The initial measurement of financial instruments, except for those designated at fair value through profit and loss (FVPL), includes transaction cost.

"Day 1" Difference. Where the transaction in a non-active market is different from the fair value of other observable current market transactions in the same instrument or based on a valuation technique whose variables include only data from observable market, the Company recognizes the difference between the transaction price and fair value (a "Day 1" difference) in the statement of comprehensive income. In cases where there is no observable data on inception, the Company deemed the transaction price as the best estimate of fair value and recognizes "Day 1" difference in profit or loss when the inputs become observable or when the instrument is derecognized. For each transaction, the Company determines the appropriate method of recognizing the "Day 1" difference.

Classification of Financial Instruments. The Company classifies its financial assets at initial recognition under the following categories: (a) financial assets at FVPL, (b) held-to-maturity (HTM) investments, (c) loans and receivables and (d) AFS financial assets. Financial liabilities, on the other hand, are classified as either financial liabilities at FVPL or other financial liabilities at amortized cost. The classification depends on the purpose for which the financial instruments were acquired or incurred and whether or not the instruments are quoted in an active market.

As at December 31, 2017 and 2016, the Company does not have financial assets and liabilities at FVPL, AFS and HTM investments. In 2015, the Company reclassified its AFS financial assets to investment in an associate (see Note 7).

AFS Financial Assets. AFS financial assets are nonderivative financial assets that are either designated in this category or not classified in any of the other categories. These are purchased and held indefinitely, and may be sold in response to liquidity requirements or changes in market conditions. These include equity investments, money market papers and other debt instruments. The unrealized gains and losses arising from the fair valuation of AFS financial assets, except for the foreign exchange fluctuations on AFS debt securities and the related effective interest, are excluded, net of tax, from reported earnings, and are reported in the statements of comprehensive income and in the equity section of the statements of financial position. These changes in fair values are recognized in equity until the investment is sold, collected, or otherwise disposed of or until the investment is determined to be impaired, at which time the cumulative gain or loss previously reported in equity are included in profit or loss.

In 2015, the Company reclassified its AFS financial assets to investment in an associate (see Note 7).

Loans and Receivables. Loans and receivables are financial assets with fixed or determinable payments and fixed maturities and that are not quoted in an active market. These are not entered into with the intention of immediate or short-term resale and are not classified or designated as AFS financial assets or financial asset at FVPL. Loans and receivables are included in current assets if maturity is within twelve months from reporting date. Otherwise, these are classified as noncurrent assets.

After initial measurement, loans and receivables are subsequently measured at amortized cost using the effective interest method, less allowance for impairment, if any. Amortized cost is calculated by taking into account any discount or premium on acquisition and any transaction cost which are directly attributable in the acquisition of the financial instrument. The amortization is included in profit or loss.

This category includes cash in banks and due from related parties.

Other Financial Liabilities. Financial liabilities are classified in this category if these are not held for trading or not designated as at FVPL upon the inception of the liability. These include liabilities arising from operations or through borrowing.

After initial recognition, other financial liabilities are subsequently measured at amortized cost using the effective interest method. Amortized cost is calculated by taking into account any related issue costs, discount or premium. Gains and losses are recognized in profit or loss when the liabilities are derecognized, as well as when there is amortization process.

This category includes accrued expenses and other current liabilities (excluding statutory payables) and note payable.

Derecognition of Financial Assets and Liabilities

Financial Assets. A financial asset (or where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognized by the Company when:

- the right to receive cash flows from the asset has expired; or
- the Company retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third party under a "pass-through" arrangement; or
- the Company has transferred its right to receive cash flows from the asset and either (a) has transferred substantially all the risks and rewards of the assets, or (b) has neither transferred nor retained substantially all the risk and rewards of the assets, but has transferred control over the asset.

When the Company has transferred its right to receive cash flows from an asset or has entered into a pass-through arrangement, and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognized to the extent of the Company's continuing involvement in the asset. Continuing involvement that takes the form of a guarantee over the transferred asset, if any, is measured at the lower of original carrying value of the asset and the maximum amount of consideration that the Company could be required to pay.

Financial Liabilities. A financial liability is derecognized when the obligation under the liability is discharged or cancelled or has expired. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of the new liability, and the difference in the respective carrying value is recognized in profit or loss.

A modification is considered substantial if the present value of the cash flows under the new terms, including net fees paid or received and discounted using the original effective interest rate, is different by at least 10% from the discounted present value of remaining cash flows of the original liability.

The fair value of the modified financial liability is determined based on its expected cash flows, discounted using the interest rate at which the Company could raise debt with similar terms and conditions in the market. The difference between the carrying value of the original liability and fair value of the new liability is recognized in the separate statements of comprehensive income.

On the other hand, if the difference does not meet the 10% threshold, the original debt is not extinguished but merely modified. In such case, the carrying value is adjusted by the costs or fees paid or received in the restructuring.

Offsetting of Financial Assets and Liabilities

Financial assets and liabilities are offset and the net amount reported in the statements of financial position if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis or to realize the asset and settle the liability simultaneously. This is not generally the case with master netting agreements where the related assets and liabilities are presented gross in the statements of financial position.

Impairment of Financial Assets

The Company assesses at each reporting date whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or group of financial assets is deemed impaired if, and only if, there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (an incurred "loss event") and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated. The carrying value of the impaired account is reduced to the extent that it exceeds the asset's net realizable value. Impairment losses are recognized in full in profit or loss. If in a subsequent period, the amount of accumulated impairment losses has decreased because of an event occurring after impairment was recognized, the decline is allowed to be reversed to profit or loss to the extent that the resulting carrying value will not exceed the amortized cost determined had no impairment been recognized.

Assets Carried at Amortized Cost. For financial assets carried at amortized cost, the Company first assesses whether objective evidence of impairment exists individually for financial assets that are individually significant, or collectively for financial assets that are not individually significant. If it is determined that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, the asset is included in a group of financial assets with similar credit risk characteristics and that group of financial assets is collectively assessed for impairment. Those characteristics are relevant to the estimation of future cash flows for groups of such assets by being indicative of the debtor's ability to pay all amounts due according to the contractual terms of the assets being evaluated. Assets that are individually assessed for impairment and for which an

impairment loss is or continues to be recognized are not included in a collective assessment of impairment.

If there is objective evidence that an impairment loss has been incurred, the amount of the loss is measured as the difference between the asset's carrying value and the present value of the estimated future cash flows discounted at the assets' original effective interest rate. Time value is generally not considered when the effect of discounting is not material. The carrying value of the asset shall be reduced directly or through the use of an allowance account. The amount of loss shall be recognized in profit or loss.

If, in a subsequent period, the amount of the estimated impairment loss decreases because of an event occurring after the impairment was recognized, the previously recognized impairment loss is reduced by adjusting the allowance account. Any subsequent reversal of an impairment loss is recognized in the profit or loss, to the extent that the carrying value of the asset does not exceed its amortized cost at the reversal date.

AFS Financial Assets. For equity investments classified as AFS financial assets, impairment would include a significant and prolonged decline in the fair value of the investments below their cost. Where there is evidence of impairment, the cumulative loss, measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognized in profit or loss, is removed from equity and recognized in profit or loss. Impairment losses on equity investments are not reversed through income. Increases in fair value after impairment are recognized directly in the other comprehensive income and presented in the statements of changes in equity.

Other Current Assets

Other current assets include input value added tax (VAT), creditable withholding taxes (CWT) and prepayments.

VAT. Revenues, expenses and assets are recognized net of the amount of VAT, except:

- where the tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case the tax is recognized as part of the cost of acquisition of the asset or as part of the expense item as applicable; and
- receivables and payables that are stated with the amount of tax included.

The net amount of tax recoverable from the taxation authority is included as part of "Other current assets".

CWT. CWT are amounts withheld from income subject to expanded withholding taxes. CWT can be utilized as payment for income taxes provided that these are properly supported by certificates of creditable tax withheld at source subject to the rules on Philippine income taxation.

Prepayments. Prepayments represent expenses paid in advance and recorded as assets before these are utilized. Prepayments are apportioned over the period covered by the payment and charged to profit or loss when incurred. Prepayments that are expected to be realized for no more than twelve months after the reporting date are classified as other current assets. Otherwise, these are classified as other noncurrent assets.

Investment in an Associate

Investment in an associate is recognized initially at cost and subsequently accounted for using the equity method.

An associate is an entity in which the Company has significant influence but not control, over the financial and operating policies of such entity. The Company's share of its associate's post-acquisition profits or losses is recognized in profit or loss, and its share of post-acquisition movements in reserves is recognized in equity. The cumulative post-acquisition movements are adjusted against the carrying value of the investment.

When the Company's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Company does not recognize further losses, unless it has incurred obligations or made payments on behalf of the associate. Unrealized gains on transactions between the Company and its associate are eliminated to the extent of the Company's interest in the associate. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred.

The Company determines at the end of each reporting year whether there is any evidence that the investment is impaired. If this is the case, the amount of impairment is calculated as the difference between the carrying value of the investment and recoverable amount.

Property and Equipment

Property and equipment are stated at cost less accumulated depreciation and any impairment in value. The initial cost of property and equipment comprises its purchase price, including import duties, non-refundable purchase taxes after deducting trade discounts and rebates and any directly attributable costs of bringing the asset to its working condition and location for its intended use. The cost of self-constructed assets includes the cost of materials and direct labor, any other costs directly attributable to bringing the assets to a working condition for their intended use, the costs of dismantling and removing the items and restoring the site on which they are located and capitalized borrowing costs. Purchased software that is integral to the functionality of the related equipment is capitalized as part of the equipment.

Expenditures incurred after the property and equipment have been put into operation, such as repairs, maintenance and overhaul costs, are normally charged to operations in the year the costs are incurred. In situations where it can be clearly demonstrated that the expenditures have resulted in an increase in the future economic benefits expected to be obtained from the use of an item of property and equipment beyond its originally assessed standard of performance, the expenditures are capitalized as additional costs of property and equipment. The cost of replacing a component of an item of property and equipment is recognized if it is probable that the future economic benefits embodied within the component will flow to the Company, and its cost can be measured reliably. The carrying value of the replaced component is derecognized.

When parts of an item of property and equipment have different useful lives, they are accounted for as separate items (major components) of property and equipment.

Depreciation is calculated on a straight-line basis over the following estimated useful lives of the property and equipment:

	Number of Years
Condominium unit	31
Office furniture and fixtures	3-5
Service vehicle	3

The estimated useful lives and method for depreciation are reviewed periodically to ensure that the periods and method of depreciation are consistent with the expected pattern of economic benefits from items of property and equipment.

Construction in progress (CIP) pertains to properties under construction and is stated at cost. Costs include costs of construction, labor and other direct costs. CIP is not depreciated until such time that the relevant assets are completed and available for operational use.

When assets are retired or otherwise disposed of, the cost and the related accumulated depreciation and any impairment in value are removed from the accounts. Any resulting gain or loss is credited to or charged against current operations.

Impairment of Nonfinancial Assets

Nonfinancial assets consisting of property and equipment and other nonfinancial assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying value of an asset may not be recoverable. If any such indication exists and where the carrying value of an asset exceeds its recoverable amount, the asset or cash-generating unit is written down to its recoverable amount. The estimated recoverable amount is the higher of an asset's fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of time value of money and the risks specific to the asset. For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the cash-generating unit to which the asset belongs. Impairment losses are recognized in the statements of comprehensive income.

An assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated. A previously recognized impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized. If that is the case, the carrying value of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying value that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. After such a reversal, the depreciation charge is adjusted in future periods to allocate the asset's revised carrying value, less any residual value, on a systematic basis over remaining useful life.

Equity

Capital stock. Capital stock is measured at par value for all shares issued. Incremental costs directly attributable to the issuance of new shares are treated as deduction from equity, net of tax.

Retained earnings. Retained earnings represent the cumulative balance of net income or loss net of any dividend declaration.

Other Comprehensive Income (OCI). OCI comprises of items of income and expense that are not recognized in profit or loss for the year in accordance with PFRS. OCI of the Company pertains to share in OCI of an associate.

Revenue Recognition

Revenue is recognized to the extent that it is probable that economic benefits will flow to the Company and the amount of revenue can be measured reliably. Revenue is recognized as follows:

Interest Income. Interest income is recognized in profit or loss as it accrues, taking into account the effective yield on the asset.

Rent income. Rent income is recognized using the straight-line method over the term of the lease.

Costs and Expenses Recognition

Costs and expenses are recognized in profit or loss when there is a decrease in future economic benefit related to a decrease in an asset or an increase in a liability that can be measured reliably.

General and administrative expenses. General and administrative expenses constitute cost of administering the business. These are expensed as incurred.

Operating Leases

The determination of whether an arrangement is or contains a lease is based on the substance of the arrangement at the inception date whether the fulfillment of the arrangement is dependent on the use of a specific asset or assets, and the arrangement conveys a right to use the asset. A reassessment is made after inception of the lease only if one of the following applies:

- a. there is a change in contractual terms, other than a renewal or extension of the arrangement;
- b. a renewal option is exercised or extension granted, unless the term of the renewal or extension was initially included in the lease term;
- c. there is a change in the determination of whether fulfillment is dependent on a specified asset;
or
- d. there is a substantial change to the asset.

Where reassessment is made, lease accounting shall commence or cease from the date when the change in circumstances gave rise to the reassessment for scenarios (a), (c) or (d) and at the date of renewal or extension period for scenario (b) above.

Operating Lease - Company as a Lessor. Leases where the Company retains substantially all the risks and benefits of ownership of the asset are classified as operating leases. Initial direct costs incurred in negotiating an operating lease are added to the carrying value of the leased asset and recognized on a straight-line basis over the lease term on the same basis as rental income. Contingent rents are recognized as revenue in the period in which these are earned.

Income Taxes

Current Tax. Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rate used to compute the amount is the one that has been enacted or substantively enacted at the reporting date.

Deferred Tax. Deferred tax is provided on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences. Deferred tax assets are recognized for all deductible temporary differences, carry-forward benefits of any unused tax credits from the excess of minimum corporate income tax (MCIT) over the regular corporate income tax (RCIT) and any unused net operating loss carryover (NOLCO), to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and carry-forward benefits of unused MCIT and unused NOLCO can be utilized. Deferred tax, however, is not recognized when it arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

The carrying value of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are reassessed at each reporting date and are recognized to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rate that are expected to apply to the period when the asset is realized or the liability is settled, based on tax rate that has been enacted or substantively enacted at the reporting date.

Deferred tax is recognized in profit or loss except to the extent that it relates to a business combination, or items directly recognized in equity as other comprehensive income.

Deferred tax assets and liabilities are offset, if a legally enforceable right exists to offset current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Earnings (Loss) Per Share

Basic earnings (loss) per share is computed by dividing net income (loss) for the year attributable to common shareholders by the weighted average number of common shares outstanding during the year, with retroactive adjustments for any stock dividends declared and stock split.

Diluted earnings (loss) per share is calculated by adjusting the weighted average number of common shares outstanding to assume conversion of all potential dilutive common shares.

Where the earnings (loss) per share effect of potential dilutive common shares would be anti-dilutive, basic and diluted earnings (loss) per share are stated at the same amount.

Operating Segment

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to the transactions with any of the Company's other components.

The Company has no operating segment other than being a holding company.

Related Parties

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Parties are also considered to be related if they are subject to common control or common significant influence.

A related party transaction is a transfer of resources, services or obligations between a reporting entity and a related party, regardless whether a price is charged.

Provisions

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

Contingencies

Contingent liabilities are not recognized in the financial statements. They are disclosed in the notes to financial statements unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are not recognized in the financial statements but are disclosed when an inflow of economic benefits is probable.

Events after the Reporting Period

Post year-end events that provide additional information about the Company's financial position at the end of reporting period (adjusting events) are reflected in the financial statements. Post year-end events that are non-adjusting are disclosed in the notes to financial statements when material.

3. Significant Judgment, Accounting Estimates and Assumptions

PFRS requires management to make judgments, estimates and assumptions that affect the amounts reported in the financial statements. The judgment, estimates and assumptions used in the financial statements are based upon management's evaluation of relevant facts and circumstances as at the reporting date. While the Company believes that the assumptions are reasonable and appropriate, significant differences in the actual experience or significant changes in the assumptions may materially affect the estimated amounts. Actual results could differ from such estimates.

Judgment

In the process of applying the Company's accounting policies, management has made the following judgment, apart from those involving estimates, which have the most significant effect on the amounts recognized in the financial statements.

Classifying Investment Property and Owner-occupied Property. The Company considers a property as an investment property when the property generates cash flows which are largely independent of other assets held by the Company and a property as owner-occupied property when cash flows generated by it pertains not only to the property but also to other assets used for operations or administrative purposes.

A property may comprise of portions held for capital appreciation and portions used in operation or administrative purpose. If these portions cannot be sold separately, the property is accounted for as an investment property only if an insignificant portion is held for use in operation or for administrative purpose.

The Company classified its condominium unit under property and equipment.

Accounting for Lease Commitments – Company as a Lessor. Management exercises judgment in determining whether substantially all the significant risks and benefits of ownership of the assets held for lease are retained by the Company. Lease contracts where the Company retains substantially all the risks and benefits incidental to ownership of the leased item are accounted for as operating leases. Otherwise, these are considered as finance leases.

The Company, as a lessor, has entered into property leases where it has determined that it retains all the significant risks and benefits of ownership of those properties. As such, the lease agreements are accounted for as operating leases.

Rent income amounted to ₱0.8 million in 2015 (see Note 15).

Determining Significant Influence over MARC. When an entity holds 20% or more of the voting power (directly or through subsidiaries) on an investee, it will be presumed that the investor has significant influence unless it can be clearly demonstrated that this is not the case. If the holding is less than 20%, the entity will be presumed not to have significant influence unless such influence can be clearly demonstrated. A substantial or majority ownership by another investor does not necessarily preclude an entity from having significant influence.

The existence of significant influence by an entity is usually evidenced in one or more of the following ways:

- representation on the board of directors or equivalent governing body of the investee;
- participation in the policy-making process, including participation in decisions about dividends or other distributions;
- material transactions between the entity and the investee; interchange of managerial personnel; or
- provision of essential technical information

The Company has determined that it exercises significant influence over MARC.

Assessing Modification on the Terms of the Note Payable. The Company considers its note payable to be substantially modified if the present value of the cash flows under the new terms, including net fees paid or received and discounted using the original effective interest rate, is different by at least 10% from the discounted present value of remaining cash flows of the original liability. Such modification will result to derecognition of original liability and the recognition of a new liability.

On the other hand, if the difference does not meet the 10% threshold, the original debt is not extinguished but merely modified. In such case, the carrying value is adjusted by the costs or fees paid or received in the restructuring.

The Company assessed that there is no substantial modification on the terms of the note payable.

Determining Operating Segments. The Company determines and presents operating segments based on the information that is internally provided to the BOD. As December 31, 2017 and 2016, the Company has determined that it has no operating segment other than being a holding company.

Estimates and Assumptions

The key estimates concerning the future and other key sources of estimation uncertainty at the reporting date, that has a significant risk of causing a material adjustment to the carrying values of assets and liabilities within the next financial year, are described below.

Estimating Allowance for Impairment of Due from Related Parties. The Company maintains allowance for impairment at a level considered adequate to provide for potential uncollectible due from related parties. The level of this allowance is evaluated by management on the basis of factors that affect the collectibility of the accounts. These factors include, but are not limited to, the length of the Company's relationship with the debtor, the debtor's payment behaviour and known market factors. The Company identifies and provides for specific accounts that are doubtful of collection and reviews the age and status of the remaining receivables and establishes a provision considering, among others, historical collection and write-off experience.

No allowance for impairment of due from related parties was recognized in 2017, 2016 and 2015. Carrying value of receivables amounted to ₱58.7 million and ₱100.1 million as at December 31, 2017 and 2016, respectively (see Note 13).

Assessing Impairment of Nonfinancial Assets. The Company assesses impairment on property and equipment and investment in an associate whenever events or changes in circumstances indicate that the carrying value of these assets may not be recoverable. The factors that the Company considers important which could trigger an impairment review include the following:

- significant underperformance relative to expected historical or projected future operating results;
- significant changes in the manner of use of the acquired assets or the strategy for overall business; and
- significant negative industry or economic trends.

The Company recognizes an impairment loss whenever the carrying value of an asset exceeds its recoverable amount. The recoverable amount is computed using the value-in-use approach. Recoverable amounts are estimated for individual assets or, if it is not possible, for the cash-generating unit to which the asset belongs. Determining such amount requires the estimation of cash flows expected to be generated from the continued use and ultimate disposition of such assets.

No impairment loss was recognized in 2017, 2016 and 2015.

The carrying value of the Company's investment in an associate and property and equipment are as follows:

	Note	2017	2016
Investment in an associate	7	₱2,640,244,182	₱2,620,299,972
Property and equipment	6	45,093,324	43,311,763
		₱2,685,337,506	₱2,663,611,735

Estimating the Useful Lives of Property and Equipment. The Company estimates the useful lives of property and equipment based on the period over which the assets are expected to be available for use. The Company annually reviews the estimated useful lives of property and equipment based on factors that include asset utilization, internal technical evaluation, technological changes, environmental changes and anticipated use of the assets.

There is no change in the estimated useful life of the Company's property and equipment in 2017, 2016 and 2015. Carrying value of property and equipment amounted to ₱45.1 million and ₱43.3 million as at December 31, 2017 and 2016, respectively (see Note 6).

Assessing Realizability of Deferred Tax Assets. The Company reviews its deferred tax assets at each reporting date and reduces the carrying value to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax assets to be utilized.

Deferred tax assets were not recognized on NOLCO and MCIT as at December 31, 2017 and 2016 because the management believes that there will be no sufficient taxable profits against which deferred tax assets can be utilized.

The Company's unrecognized deferred tax assets amounted to ₱7.8 million and ₱6.7 million as at December 31, 2017 and 2016, respectively (see Note 12).

The Company has 600,000,000 shares of MARC representing 20% and 33% equity interest as at December 31, 2017 and 2016, respectively (see Note 1).

In May 2015, the Company has assessed that it has gained significant influence over MARC. Consequently, the BOD approved the reclassification of investment from AFS financial assets to investment in an associate.

The movement of this account in 2015 follows:

	Amount
Cost	₱2,632,410,000
Unrealized fair value gain (loss)	
Balance at beginning of year	1,387,590,000

Assignment of receivables (see Note 13)	(50,000,000)	—
Balance at end of year	P1,710,000,000	P1,850,000,000

The noninterest-bearing note which was issued to PBB represents the unpaid portion of the purchase price of the investment in an associate. The note's original maturity date was December 31, 2015 but was then extended by both parties until December 31, 2017.

On August 4, 2016, PBB assigned the note to Trans Middle East Philippine Equities, Inc. (TMEE). TMEE has signified its intention to convert the remaining balance of the note to Company's shares of stock.

10. Equity

The following summarizes the information on the Company's registration of securities under the Securities Regulation Code:

On March 21, 1995, the SEC approved the listing of the Company's 118,000,000 million shares at an offer price of P1.0 per share. As at December 31, 2017 and 2016, 1,528,474,000 shares are listed in the PSE.

11. General and Administrative Expenses

This account consists of:

	Note	2017	2016	2015

		P6,880,122	P4,649,767	P15,300,486

12. Income Tax

There is no provision for income tax in 2017 and 2016 due to the Company's tax loss position. Provision for income tax represents MCIT in 2015.

The reconciliation of provision for income tax at the statutory income tax to the provision for income tax shown in the statements of comprehensive income follows:

	2017	2016	2015
Income tax computed at statutory tax rate	P2,652,685	(P814,690)	(P8,987,049)
Change in unrecognized deferred tax assets	1,082,489	1,394,930	4,366,407
Add (deduct) tax effects of:			
Share in net income of an associate not subject to tax	(4,672,330)	(508,111)	(3,660,755)
Expired NOLCO and MCIT	981,248	-	-
Interest income already subjected to final tax	(44,392)	(72,129)	(225,622)
Nondeductible expenses	300	-	-
Realized loss on AFS financial assets	-	-	8,523,000
	P-	P-	P15,981

Details of unrecognized deferred tax assets are as follows:

	2017	2016
NOLCO	P7,809,093	P6,719,110
MCIT	15,981	23,475
	P7,825,074	P6,742,585

Deferred tax assets were not recognized on NOLCO and MCIT as at December 31, 2017 and 2016 because the management believes that there will be no sufficient future taxable profits against which deferred tax assets can be utilized.

As at December 31, 2017, unused NOLCO that can be claimed as deduction from future taxable income are as follows:

Year Incurred	Expiry Date	Amount	Applied	Expired	Balance
2017	2020	P6,879,122	P-	P-	P6,879,122
2016	2019	4,649,767	-	-	4,649,767

Outstanding balance is noninterest-bearing, payable on demand and settlement occurs in cash.

In 2017, the Company assigned the receivable from the Parent Company to TMEE to offset with the note payable amounting to P50.0 million.

Key Management Personnel

Compensation of key management personnel amounted to P0.4 million in 2017 and 2016 and P0.3 million in 2015.

14. Earnings (Loss) Per Share

Basic and diluted loss per share is computed as follow:

	2017	2016	2015
Net income (loss)	₱8,842,283	(₱2,715,634)	(₱29,972,810)
Weighted average number of common shares outstanding	1,528,474,000	1,528,474,000	1,528,474,000
Earnings (loss) per share - basic and diluted	₱0.006	(₱0.002)	(₱0.020)

There has been no transaction involving common shares or potential common shares that occurred subsequent to the reporting dates.

15. Lease Commitments and Contingencies

Lease Commitments

The Company as lessor, entered into cancellable leases. Rent income amounted to ₱0.8 million in 2015.

Legal Claims and Assignment of Litigation Cases

The Company is a co-defendant in a collection case for US\$1.5 million filed in the Los Angeles Superior Court by a foreign Merchant and its Philippine affiliate in 2012. The plaintiffs have alleged that they were not paid the charge cards availments that the Company processed under a Tripartite Merchants Agreements (TMA). Based on Company's records, however, payments due to the foreign merchant were wired to the latter's designated agent. The Company did not breach any regulatory or trade standards in complying with the TMA. The Company's management and its counsel believe that the collection case is legally defensible, and any ultimate liability resulting therefrom will not materially affect the Company's financial position and results of operations. Moreover, under the Share Purchase Agreement dated October 18, 2013, the Sellers will indemnify the Company should the court adjudge the Company liable.

16. Financial Risk Management Objectives and Policies

The Company has risk management policies that systematically view the risks that could prevent the Company from achieving its objectives. These policies are intended to manage risks identified in such a way that opportunities to deliver the Company's objectives are achieved. The Company's risk management takes place in the context of day-to-day operations and normal business processes such as strategic planning and business planning. Management has identified each risk and is responsible for coordinating and continuously improving risk strategies, processes and measures in accordance with the Company's established business objectives.

Financial Risk Management Objectives and Policies

The Company's principal financial instruments consist of cash in banks, due from related parties and accounts and other current liabilities (excluding statutory payables) and note payable. The primary purpose of these financial instruments is to finance the Company's operations. The main risks arising from the use of these financial instruments are credit risk and liquidity risk. Management reviews and approves the policies for managing each of these risks which are summarized below.

Credit Risk

Credit risk is the risk of loss that may arise on outstanding financial instruments should a counterparty defaults on its obligation. The Company's exposure to credit risk arises primarily from cash in banks and receivables.

Exposure to Credit Risk. The carrying value of cash in banks and receivables represent the Company's maximum exposure to credit risk in relation to financial assets.

Credit Quality. Credit risk arising from the inability of a counterparty to meet the terms of the Company's financial instrument is generally limited to the amount of the counterparty's obligations.

The aging analyses of financial assets as at December 31, 2017 and 2016 are as follows:

2017					
	Neither Past Due Nor Impaired High Grade	Standard Grade	Past Due But Not Impaired	Past Due and Impaired	Total
Cash in banks	P605,059	P-	P-	P-	P605,059
Due from related parties	58,717,477	-	-	-	58,717,477
	P59,322,536	P-	P-	P-	P59,322,536

2016					
	Neither Past Due Nor Impaired High Grade	Standard Grade	Past Due But Not Impaired	Past Due and Impaired	Total
Cash in banks	P108,610,791	P-	P-	P-	P108,610,791
Due from related parties	100,110,840	-	-	-	100,110,840
	P208,721,631	P-	P-	P-	P208,721,631

High grade financial assets are those financial assets from counterparties with good financial condition and with relatively low defaults. Standard grade financial assets are those financial assets that are collected on their due dates without an effort from the Company to follow them up.

Cash in banks are with reputable financial institutions duly approved by the BOD.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to settle or meet its financial obligations when they fall due. The Company aims to maintain flexibility by maintaining sufficient cash to meet all foreseeable cash needs.

The tables below summarize the maturity profile of the Company's financial liabilities as at December 31, 2017 and 2016 based on contractual undiscounted cash flows.

	2017			Total

*Excluding statutory payables

Cash in Banks, Due from Related Parties, Accrued Expenses and Other Current Liabilities (excluding Statutory Payables) and Note Payable. The carrying values of cash in banks, due from related parties and accrued expenses and other current liabilities (excluding statutory payables) approximate their fair values due to the short-term nature of the transactions. The fair value measurement of current financial assets and liabilities is classified as Level 3 (significant unobservable inputs).

17. Capital Management Objectives, Policies and Procedures

The Company's capital management objectives are to ensure the Company's ability to continue as a going concern and to provide an adequate return to shareholders. The Company manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Company may return capital to shareholders or issue new shares.

There has been no change in the objectives, policies and processes in 2017 and 2016.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operation

Results of Operation

Nine months ended September 30, 2018 compared with nine months ended September 30, 2017

Revenue

The Company is not yet operating, hence, revenues generated mainly comes from interest on bank deposits. The interest income for the period is lower by P0.11 million compared with same period last year, due to lower cash balance this period as compared last year.

General and administrative expenses

a. Depreciation

The company's service vehicle has been fully depreciated last February 2018. In effect, recognized depreciation for the nine months period ended September 30, 2018 is lower by P0.09 million or 5.82% compared with same period last year.

b. Outside services

More outsourced services were incurred last year than this year resulting to decline in this account by P0.60 million or 55.63%.

c. Taxes and licenses

Last year, the Company paid SEC for tender offer filing fee, resulting to higher taxes and licenses incurred compared with same period this year. No significant taxes and license fees were incurred during the period.

d. Communication, light and water

Communication, light and water expense this period is higher by P0.08 million or 69.78% compared with same period last year. The increase is attributable to occupancy of the Company's condo unit, starting early this year (this was idle last year).

e. Director's fees

Director's fee last year is higher than this year due to payments to board of directors for board meetings.

f. Others

Other general and administrative expenses this period is lower by P0.21 million or 46.17% compared with same period last year, due to payment for PCD maintenance fee last year.

Share in net income of an associate

Net income of Marcventures Holdings, Inc. (MARC) for the nine months period ended September 30, 2018 is lower compared with same period last year. Consequently, the company's share in the net income of MARC has declined from ₱58.76 million last year to ₱4.30 million this year. Also, the Company's equity interest in MARC has reduced to 19.9% this year (from 32.9% last year), as an effect of the merger of MARC, BHI and APMPC (see Note 1).

Three months ended September 30, 2018 compared with three months ended September 30, 2017

Revenue

The Company is not yet operating, hence, revenues generated mainly comes from interest on bank deposits. The interest income for the period is lower by ₱0.10 million compared with same period last year, due to lower cash balance this period as compared last year.

General and administrative expenses

a. Depreciation

The company's service vehicle has been fully depreciated last February 2018. In effect, recognized depreciation for the three months period ended September 30, 2018 is lower by ₱0.13 million or 21.35% compared with same period last year.

b. Others

Other general and administrative expenses this period is lower by ₱0.16 million or 63.71% compared with same period last year, due to payment for PCD maintenance fee last year.

Share in net income of an associate

Net income of Marcventures Holdings, Inc. (MARC) for the three months ended September 30, 2018 is lower compared with same period last year. Consequently, the company's share in the net income of MARC has declined from ₱50.81 million last year to ₱2.31 million this year. Also, the Company's equity interest in MARC has reduced to 19.9% this year (from 32.9% last year), as an effect of the merger of MARC, BHI and APMPC (see Note 1).

Statements of Financial Position

The significant changes in the statement of financial position accounts during the nine months ended September 30, 2018 compared with the December 31, 2017 level are as follows:

- *Cash*
The Company's cash decreased by ₱0.22 million or 35.39%. During the period, it has collected ₱2.42 million of its receivables from related parties. Payments of operating expenses has caused the decline in the company's cash balance.
- *Due from related parties*
The decrease in this account is mainly due to collection of receivables from related parties during the period.
- *Other current assets*
The increase in other current assets of ₱0.64 million or 8.06% is mainly due to amortization of Deferred input VAT of ₱0.62 million (see *Deferred input VAT*). The movement is also caused by receipt of the construction deposit amounting to ₱0.25 million. The company also paid insurance premiums which resulted to increase in this account.
- *Property and equipment*
Decrease in property and equipment by ₱1.53 million is mainly due to recognition of depreciation for the period.

- *Investment in an associate*
The increase in investment in an associate by P4.30 million pertains to recognition of share in the net income of MARC.
- *Deferred input VAT*
Movement in this account is attributable to amortization of input VAT for the period.
- *Retained earnings*
The increase in retained earnings by P0.18 million pertains to the net income during the nine months period ended September 30, 2018.

Statements of Cash Flows

Net cash used in operating activities for the nine months ended September 30, 2018 amounts to P0.22 million, while the cash provided by operating activities amounted to P44.35 million in same period last year.

Significant movement in cash during the period is attributed to collection of P2.42 million from related parties and payments of the company's operating expenses.

(A Subsidiary of RYM Business Management Corp.)

NOTES TO UNAUDITED FINANCIAL STATEMENTS

1. Corporate Information

General Information

Bright Kindle Resources & Investments, Inc. (the Company) was incorporated and registered with the Philippine Securities and Exchange Commission (SEC) on December 4, 1981 as a credit card corporation. On March 21, 1995, the Company listed its shares with The Philippine Stock Exchange, Inc. (PSE).

On October 18, 2013, the Board of Directors (BOD) of Rizal Commercial Banking Corporation (RCBC) approved the sale of its 89.98% collective stake in the Company to RYM Business Management Corp. (the Parent Company) and other investors. The Parent Company acquired 76.56% interest in the Company.

With the change in ownership and management, the Company amended its Articles of Incorporation to change its corporate name to Bright Kindle Resources & Investments, Inc. and its primary business purpose to a holding company. The SEC approved the Company's amendments on January 30, 2014. Assets and liabilities related to the Company's credit card servicing operation were transferred to RCBC Bankard Services Corporation (RBSC) and RCBC on December 12, 2013. The Company is now engaged in dealing with all kinds of properties, including investment in bonds and shares of capital stock, without engaging in the business of an investment company under the Investment Company Act or a finance company or a broker or dealer in securities.

The Company's principal office address is at 16th Floor Citibank Tower, 8741 Pasco de Roxas, Makati City.

Investment in Marcventures Holdings, Inc. (MARC)

On December 15, 2014, the Company acquired 600,000,000 shares of MARC representing 33% equity interest for ₱2,700.0 million from Philippine Business Bank - Trust and Investment Center (PBB).

In May 2015, the Company has assessed that it has gained significant influence over MARC. Consequently, the BOD approved the reclassification of investment from AFS financial assets to investment in an associate.

On February 13, 2017, Marcventures Mining and Development Corporation (MMDC), a subsidiary of MARC, received an order dated February 8, 2017 from the Department of Environment and Natural Resources cancelling its Mineral Production Sharing Agreement (MPSA). The management and its legal counsel believe that the order has no basis and the outcome of legal actions taken will not have a material adverse effect on the MMDC's operations.

MMDC's management will take all the necessary legal actions and exhaust all remedies available to prevent the implementation of the order. The management and its legal counsel believe that the order has no basis and the outcome of legal actions taken will be in favor of the Company. MMDC has continued its mining operations in the areas covered by the MPSA.

On February 22, 2017, MMDC has filed a Notice of Appeal to Office of the President.

On December 29, 2017, the SEC approved the application of merger of MARC, Brightgreen Resources Holdings Inc. (BHI) and Asia Pilot Mining Phils. Corp. (APMPC), with MARC as the surviving entity. MARC issued 1,125,000,000 shares to BHI and APMPC resulting to reduction of the Company's equity interest in MARC to 20%.

2. Summary of Significant Accounting Policies

Basis of Preparation

The financial statements have been prepared in compliance with Philippine Financial Reporting Standards (PFRS). This financial reporting framework includes PFRS, Philippine Accounting Standards (PAS) and Philippine Interpretations of issuances by the International Financial Reporting Interpretations Committee, issued by the Financial Reporting Standards Council and adopted by the SEC, including SEC pronouncements.

Measurement Bases

The financial statements are presented in Philippine Peso, which is also the Company's functional currency. All values represent absolute amounts except otherwise stated.

The financial statements have been prepared using the historical cost basis. Historical cost is generally based on the fair value of the consideration given in exchange for an asset and fair value of the consideration received in exchange for incurring a liability.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the transaction date. The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

The Company uses market observable data to a possible extent when measuring the fair value of an asset or a liability. Fair values are categorized into different levels in a fair value hierarchy based on inputs used in the valuation techniques as follows:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

Further information about the assumptions made in measuring fair value is included in Note 16, Financial Risk Management Objectives and Policies.

Adoption of New and Amended PFRS

The accounting policies adopted are consistent with those of the previous financial year, except for the adoption of the following new and amended PFRS which the Company adopted effective for annual periods beginning January 1, 2017:

- Amendments to PAS 7, *Statement of Cash Flows - Disclosure Initiative* – The amendments require entities to provide information that enable the users of financial statements to evaluate changes in liabilities arising from their financing activities.
- Amendments to PAS 12, *Income Taxes - Recognition of Deferred Tax Assets for Unrealized Losses* – The amendments clarify the accounting for deferred tax where an asset is measured at fair value and the fair value is below the asset's tax base (e.g. deferred tax asset related to unrealized losses on debt instruments measured at fair value), as well as certain other aspects of accounting for deferred tax assets.
- Amendment to PFRS 12, *Disclosures of Interests in Other Entities – Clarification of the Scope of the Standard* – The amendment is part of the Annual Improvements to PFRS 2014-2016 Cycle and clarifies that the disclosure requirements in PFRS 12, other than those relating to summarized financial information, apply to an entity's interest in a subsidiary, a joint venture or an associate (or a portion of its interest in a joint venture or an associate) that is classified (or included in a disposal group that is classified) as held for sale.

The adoption of the foregoing new and amended PFRS did not have any material effect on the financial statements. Additional disclosures have been included in the notes to financial statements, as applicable.

New and Amended PFRS in Issue But Not Yet Effective

Relevant new and amended PFRS which are not yet effective for the year ended December 31, 2017 and have not been applied in preparing the financial statements are summarized below.

Effective for annual periods beginning on or after January 1, 2018:

- PFRS 9, *Financial Instruments* – This standard will replace PAS 39, *Financial Instruments: Recognition and Measurement* (and all the previous versions of PFRS 9). It contains requirements for the classification and measurement of financial assets and financial liabilities, impairment, hedge accounting and derecognition.

PFRS 9 requires all recognized financial assets to be subsequently measured at amortized cost or fair value (through profit or loss or through other comprehensive income), depending on their classification by reference to the business model within which they are held and their contractual cash flow characteristics.

For financial liabilities, the most significant effect of PFRS 9 relates to cases where the fair value option is taken: the amount of change in fair value of a financial liability designated as at fair value through profit or loss that is attributable to changes in the credit risk of that liability is recognized in other comprehensive income (rather than in profit or loss), unless this creates an accounting mismatch.

For the impairment of financial assets, PFRS 9 introduces an "expected credit loss" model based on the concept of providing for expected losses at inception of a contract; it will no longer be necessary for there to be objective evidence of impairment before a credit loss is recognized.

For hedge accounting, PFRS 9 introduces a substantial overhaul allowing financial statements to better reflect how risk management activities are undertaken when hedging financial and non-financial risk exposures.

The derecognition provisions are carried over almost unchanged from PAS 39.

- **PFRS 15, *Revenue from Contract with Customers*** - The new standard replaces PAS 11, *Construction Contracts*, PAS 18, *Revenue* and related interpretations. It establishes a single comprehensive framework for revenue recognition to apply consistently across transactions, industries and capital markets, with a core principle (based on a five-step model to be applied to all contracts with customers), enhanced disclosures, and new or improved guidance (e.g. the point at which revenue is recognized, accounting for variable considerations, costs of fulfilling and obtaining a contract, etc.).
- **Amendment to PFRS 15 - *Clarification to PFRS 15*** - The amendments provide clarifications on the following topics: (a) identifying performance obligations; (b) principal versus agent considerations; and (c) licensing. The amendments also provide some transition relief for modified contracts and completed contracts.
- **Amendments to PAS 28, *Investments in Associates and Joint Ventures - Measuring an Associate or Joint Venture at Fair Value*** - The amendments are part of the Annual Improvements to PFRS 2014-2016 Cycle and clarify that the election to measure at fair value through profit or loss an investment in an associate or a joint venture that is held by an entity that is a venture capital organization, or other qualifying entity, is available for each investment in an associate or joint venture on an investment-by-investment basis, upon initial recognition.

Effective for annual periods beginning January 1, 2019:

- **PFRS 16, *Leases*** - This standard replaces PAS 17, *Leases* and its related interpretations. The most significant change introduced by the new standard is that almost all leases will be brought onto lessees' statement of financial position under a single model (except leases of less than 12 months and leases of low-value assets), eliminating the distinction between operating and finance leases. Lessor accounting, however, remains largely unchanged and the distinction between operating and finance lease is retained.

Under prevailing circumstances, the adoption of the foregoing new and amended standards is not expected to have any material effect on the financial statements of the Company. Additional disclosures will be included in the financial statements, as applicable.

Financial Assets and Liabilities

Date of Recognition. Financial assets and liabilities are recognized in the statements of financial position when the Company becomes a party to the contractual provision of a financial instrument. Financial instruments are initially recognized at fair value. In the case of regular way purchase or sale of financial asset, recognition and derecognition, as applicable, is done using trade date accounting.

Initial Recognition of Financial Instruments. Financial assets and liabilities are recognized initially at fair value, which is the fair value of the consideration given (in case of an asset) or received (in case of a liability). The initial measurement of financial instruments, except for those designated at fair value through profit and loss (FVPL), includes transaction cost.

"Day 1" Differences. Where the transaction in a non-active market is different from the fair value of other observable current market transactions in the same instrument or based on a valuation technique whose variables include only data from observable market, the Company recognizes the difference between the transaction price and fair value (a "Day 1" difference) in the statement of comprehensive income. In cases where there is no observable data on inception, the Company deemed the transaction price as the best estimate of fair value and recognizes "Day 1" difference in profit or loss when the inputs become observable or when the instrument is derecognized. For each transaction, the Company determines the appropriate method of recognizing the "Day 1" difference.

Classification of Financial Instruments. The Company classifies its financial assets at initial recognition under the following categories: (a) financial assets at FVPL, (b) held-to-maturity (HTM) investments, (c) loans and receivables and (d) AFS financial assets. Financial liabilities, on the other hand, are classified as either financial liabilities at FVPL or other financial liabilities at amortized cost. The classification depends on the purpose for which the financial instruments were acquired or incurred and whether or not the instruments are quoted in an active market.

As at September 30, 2018 and December 31, 2017, the Company does not have financial assets and liabilities at FVPL, AFS and HTM investments.

AFS Financial Assets. AFS financial assets are nonderivative financial assets that are either designated in this category or not classified in any of the other categories. These are purchased and held indefinitely, and may be sold in response to liquidity requirements or changes in market conditions. These include equity investments, money market papers and other debt instruments. The unrealized gains and losses arising from the fair valuation of AFS financial assets, except for the foreign exchange fluctuations on AFS debt securities and the related effective interest, are excluded, net of tax, from reported earnings, and are reported in the statements of comprehensive income and in the equity section of the statements of financial position. These changes in fair values are recognized in equity until the investment is sold, collected, or otherwise disposed of or until the investment is determined to be impaired, at which time the cumulative gain or loss previously reported in equity are included in profit or loss.

Loans and Receivables. Loans and receivables are financial assets with fixed or determinable payments and fixed maturities and that are not quoted in an active market. These are not entered into with the intention of immediate or short-term resale and are not classified or designated as AFS financial assets or financial asset at FVPL. Loans and receivables are included in current assets if maturity is within twelve months from reporting date. Otherwise, these are classified as noncurrent assets.

After initial measurement, loans and receivables are subsequently measured at amortized cost using the effective interest method, less allowance for impairment, if any. Amortized cost is calculated by taking into account any discount or premium on acquisition and any transaction cost which are directly attributable in the acquisition of the financial instrument. The amortization is included in profit or loss.

This category includes cash in banks and due from related parties.

Other Financial Liabilities. Financial liabilities are classified in this category if these are not held for trading or not designated as at FVPL upon the inception of the liability. These include liabilities arising from operations or through borrowing.

After initial recognition, other financial liabilities are subsequently measured at amortized cost using the effective interest method. Amortized cost is calculated by taking into account any related issue costs, discount or premium. Gains and losses are recognized in profit or loss when the liabilities are derecognized, as well as when there is amortization process.

This category includes accrued expenses and other current liabilities (excluding statutory payables) and note payable.

Derecognition of Financial Assets and Liabilities

Financial Assets. A financial asset (or where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognized by the Company when:

- the right to receive cash flows from the asset has expired; or
- the Company retains the right to receive cash flows from the asset, but has assumed an obligation to

pay them in full without material delay to a third party under a “pass-through” arrangement; or

- the Company has transferred its right to receive cash flows from the asset and either (a) has transferred substantially all the risks and rewards of the assets, or (b) has neither transferred nor retained substantially all the risk and rewards of the assets, but has transferred control over the asset.

When the Company has transferred its right to receive cash flows from an asset or has entered into a pass-through arrangement, and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognized to the extent of the Company’s continuing involvement in the asset. Continuing involvement that takes the form of a guarantee over the transferred asset, if any, is measured at the lower of original carrying value of the asset and the maximum amount of consideration that the Company could be required to pay.

Financial Liabilities. A financial liability is derecognized when the obligation under the liability is discharged or cancelled or has expired. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of the new liability, and the difference in the respective carrying value is recognized in profit or loss.

A modification is considered substantial if the present value of the cash flows under the new terms, including net fees paid or received and discounted using the original effective interest rate, is different by at least 10% from the discounted present value of remaining cash flows of the original liability.

The fair value of the modified financial liability is determined based on its expected cash flows, discounted using the interest rate at which the Company could raise debt with similar terms and conditions in the market. The difference between the carrying value of the original liability and fair value of the new liability is recognized in the separate statements of comprehensive income.

On the other hand, if the difference does not meet the 10% threshold, the original debt is not extinguished but merely modified. In such case, the carrying value is adjusted by the costs or fees paid or received in the restructuring.

Offsetting of Financial Assets and Liabilities

Financial assets and liabilities are offset and the net amount reported in the statements of financial position if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis or to realize the asset and settle the liability simultaneously. This is not generally the case with master netting agreements where the related assets and liabilities are presented gross in the statements of financial position.

Impairment of Financial Assets

The Company assesses at each reporting date whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or group of financial assets is deemed impaired if, and only if, there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (an incurred “loss event”) and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated. The carrying value of the impaired account is reduced to the extent that it exceeds the asset’s net realizable value. Impairment losses are recognized in full in profit or loss. If in a subsequent period, the amount of accumulated impairment losses has decreased because of an event occurring after impairment was recognized, the decline is allowed to be reversed to profit or loss to the extent that the resulting carrying value will not exceed the amortized cost determined had no impairment been recognized.

Assets Carried at Amortized Cost. For financial assets carried at amortized cost, the Company first assesses whether objective evidence of impairment exists individually for financial assets that are individually significant, or collectively for financial assets that are not individually significant. If it is

determined that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, the asset is included in a group of financial assets with similar credit risk characteristics and that group of financial assets is collectively assessed for impairment. Those characteristics are relevant to the estimation of future cash flows for groups of such assets by being indicative of the debtor's ability to pay all amounts due according to the contractual terms of the assets being evaluated. Assets that are individually assessed for impairment and for which an impairment loss is or continues to be recognized are not included in a collective assessment of impairment.

If there is objective evidence that an impairment loss has been incurred, the amount of the loss is measured as the difference between the asset's carrying value and the present value of the estimated future cash flows discounted at the assets' original effective interest rate. Time value is generally not considered when the effect of discounting is not material. The carrying value of the asset shall be reduced directly or through the use of an allowance account. The amount of loss shall be recognized in profit or loss.

If, in a subsequent period, the amount of the estimated impairment loss decreases because of an event occurring after the impairment was recognized, the previously recognized impairment loss is reduced by adjusting the allowance account. Any subsequent reversal of an impairment loss is recognized in the profit or loss, to the extent that the carrying value of the asset does not exceed its amortized cost at the reversal date.

AFS Financial Assets. For equity investments classified as AFS financial assets, impairment would include a significant and prolonged decline in the fair value of the investments below their cost. Where there is evidence of impairment, the cumulative loss, measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognized in profit or loss, is removed from equity and recognized in profit or loss. Impairment losses on equity investments are not reversed through income. Increases in fair value after impairment are recognized directly in the other comprehensive income and presented in the statements of changes in equity.

Other Current Assets

Other current assets include input value added tax (VAT), creditable withholding taxes (CWT) and prepayments.

VAT. Revenues, expenses and assets are recognized net of the amount of VAT, except:

- where the tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case the tax is recognized as part of the cost of acquisition of the asset or as part of the expense item as applicable; and
- receivables and payables that are stated with the amount of tax included.

The net amount of tax recoverable from the taxation authority is included as part of "Other current assets".

CWT. CWT are amounts withheld from income subject to expanded withholding taxes. CWT can be utilized as payment for income taxes provided that these are properly supported by certificates of creditable tax withheld at source subject to the rules on Philippine income taxation.

Prepayments. Prepayments represent expenses paid in advance and recorded as assets before these are utilized. Prepayments are apportioned over the period covered by the payment and charged to profit or loss when incurred. Prepayments that are expected to be realized for no more than twelve months after the reporting date are classified as other current assets. Otherwise, these are classified as other noncurrent assets.

Investment in an Associate

Investment in an associate is recognized initially at cost and subsequently accounted for using the equity method.

An associate is an entity in which the Company has significant influence but not control, over the financial and operating policies of such entity. The Company's share of its associate's post-acquisition profits or losses is recognized in profit or loss, and its share of post-acquisition movements in reserves is recognized in equity. The cumulative post-acquisition movements are adjusted against the carrying value of the investment.

When the Company's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Company does not recognize further losses, unless it has incurred obligations or made payments on behalf of the associate. Unrealized gains on transactions between the Company and its associate are eliminated to the extent of the Company's interest in the associate. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred.

The Company determines at the end of each reporting year whether there is any evidence that the investment is impaired. If this is the case, the amount of impairment is calculated as the difference between the carrying value of the investment and recoverable amount.

Property and Equipment

Property and equipment are stated at cost less accumulated depreciation and any impairment in value. The initial cost of property and equipment comprises its purchase price, including import duties, non-refundable purchase taxes after deducting trade discounts and rebates and any directly attributable costs of bringing the asset to its working condition and location for its intended use. The cost of self-constructed assets includes the cost of materials and direct labor, any other costs directly attributable to bringing the assets to a working condition for their intended use, the costs of dismantling and removing the items and restoring the site on which they are located and capitalized borrowing costs. Purchased software that is integral to the functionality of the related equipment is capitalized as part of the equipment.

Expenditures incurred after the property and equipment have been put into operation, such as repairs, maintenance and overhaul costs, are normally charged to operations in the year the costs are incurred. In situations where it can be clearly demonstrated that the expenditures have resulted in an increase in the future economic benefits expected to be obtained from the use of an item of property and equipment beyond its originally assessed standard of performance, the expenditures are capitalized as additional costs of property and equipment. The cost of replacing a component of an item of property and equipment is recognized if it is probable that the future economic benefits embodied within the component will flow to the Company, and its cost can be measured reliably. The carrying value of the replaced component is derecognized.

When parts of an item of property and equipment have different useful lives, they are accounted for as separate items (major components) of property and equipment.

Depreciation is calculated on a straight-line basis over the following estimated useful lives of the property and equipment:

Asset Type	Years
Condominium unit	31
Office furniture and fixtures	3-5
Service vehicle	3

The estimated useful lives and method for depreciation are reviewed periodically to ensure that the periods and method of depreciation are consistent with the expected pattern of economic benefits from items of property and equipment.

Construction in progress (CIP) pertains to properties under construction and is stated at cost. Costs include costs of construction, labor and other direct costs. CIP is not depreciated until such time that the relevant assets are completed and available for operational use.

When assets are retired or otherwise disposed of, the cost and the related accumulated depreciation and any impairment in value are removed from the accounts. Any resulting gain or loss is credited to or charged against current operations.

Impairment of Nonfinancial Assets

Nonfinancial assets consisting of property and equipment and other nonfinancial assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying value of an asset may not be recoverable. If any such indication exists and where the carrying value of an asset exceeds its recoverable amount, the asset or cash-generating unit is written down to its recoverable amount. The estimated recoverable amount is the higher of an asset's fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of time value of money and the risks specific to the asset. For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the cash-generating unit to which the asset belongs. Impairment losses are recognized in the statements of comprehensive income.

An assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated. A previously recognized impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized. If that is the case, the carrying value of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying value that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. After such a reversal, the depreciation charge is adjusted in future periods to allocate the asset's revised carrying value, less any residual value, on a systematic basis over remaining useful life.

Equity

Capital stock. Capital stock is measured at par value for all shares issued. Incremental costs directly attributable to the issuance of new shares are treated as deduction from equity, net of tax.

Retained earnings. Retained earnings represent the cumulative balance of net income or loss net of any dividend declaration.

Other Comprehensive Income (OCI). OCI comprises of items of income and expense that are not recognized in profit or loss for the year in accordance with PFRS. OCI of the Company pertains to share in OCI of an associate.

Revenue Recognition

Revenue is recognized to the extent that it is probable that economic benefits will flow to the Company and the amount of revenue can be measured reliably. Revenue is recognized as follows:

Interest Income. Interest income is recognized in profit or loss as it accrues, taking into account the effective yield on the asset.

Rent income. Rent income is recognized using the straight-line method over the term of the lease.

Costs and Expenses Recognition

Costs and expenses are recognized in profit or loss when there is a decrease in future economic benefit related to a decrease in an asset or an increase in a liability that can be measured reliably.

General and administrative expenses. General and administrative expenses constitute cost of administering the business. These are expensed as incurred.

Operating Leases

The determination of whether an arrangement is or contains a lease is based on the substance of the arrangement at the inception date whether the fulfillment of the arrangement is dependent on the use of a specific asset or assets, and the arrangement conveys a right to use the asset. A reassessment is made after inception of the lease only if one of the following applies:

- a. there is a change in contractual terms, other than a renewal or extension of the arrangement;
- b. a renewal option is exercised or extension granted, unless the term of the renewal or extension was initially included in the lease term;
- c. there is a change in the determination of whether fulfillment is dependent on a specified asset; or
- d. there is a substantial change to the asset.

Where reassessment is made, lease accounting shall commence or cease from the date when the change in circumstances gave rise to the reassessment for scenarios (a), (c) or (d) and at the date of renewal or extension period for scenario (b) above.

Operating Lease - Company as a Lessor. Leases where the Company retains substantially all the risks and benefits of ownership of the asset are classified as operating leases. Initial direct costs incurred in negotiating an operating lease are added to the carrying value of the leased asset and recognized on a straight-line basis over the lease term on the same basis as rental income. Contingent rents are recognized as revenue in the period in which these are earned.

Income Taxes

Current Tax. Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rate used to compute the amount is the one that has been enacted or substantively enacted at the reporting date.

Deferred Tax. Deferred tax is provided on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences. Deferred tax assets are recognized for all deductible temporary differences, carry-forward benefits of any unused tax credits from the excess of minimum corporate income tax (MCIT) over the regular corporate income tax (RCIT) and any unused net operating loss carryover (NOLCO), to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and carry-forward benefits of unused MCIT and unused NOLCO can be utilized. Deferred tax, however, is not recognized when it arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

The carrying value of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are reassessed at each reporting date and are recognized to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rate that are expected to apply to the period when the asset is realized or the liability is settled, based on tax rate that has been enacted or substantively enacted at the reporting date.

Deferred tax is recognized in profit or loss except to the extent that it relates to a business combination, or items directly recognized in equity as other comprehensive income.

Deferred tax assets and liabilities are offset, if a legally enforceable right exists to offset current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Earnings (Loss) Per Share

Basic earnings (loss) per share is computed by dividing net income (loss) for the year attributable to common shareholders by the weighted average number of common shares outstanding during the year, with retroactive adjustments for any stock dividends declared and stock split.

Diluted earnings (loss) per share is calculated by adjusting the weighted average number of common shares outstanding to assume conversion of all potential dilutive common shares.

Where the earnings (loss) per share effect of potential dilutive common shares would be anti-dilutive, basic and diluted earnings (loss) per share are stated at the same amount.

Operating Segment

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to the transactions with any of the Company's other components.

The Company has no operating segment other than being a holding company.

Related Parties

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Parties are also considered to be related if they are subject to common control or common significant influence.

A related party transaction is a transfer of resources, services or obligations between a reporting entity and a related party, regardless whether a price is charged.

Provisions

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

Contingencies

Contingent liabilities are not recognized in the financial statements. They are disclosed in the notes to financial statements unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are not recognized in the financial statements but are disclosed when an inflow of economic benefits is probable.

Events after the Reporting Period

Post year-end events that provide additional information about the Company's financial position at the end of reporting period (adjusting events) are reflected in the financial statements. Post year-end events that are non-adjusting are disclosed in the notes to financial statements when material.

3. Significant Judgments, Accounting Estimates and Assumptions

PFRS requires management to make judgments, estimates and assumptions that affect the amounts reported in the financial statements. The judgment, estimates and assumptions used in the financial statements are based upon management's evaluation of relevant facts and circumstances as at the reporting date. While the Company believes that the assumptions are reasonable and appropriate, significant differences in the actual experience or significant changes in the assumptions may materially affect the estimated amounts. Actual results could differ from such estimates.

Judgments

In the process of applying the Company's accounting policies, management has made the following judgments, apart from those involving estimates, which have the most significant effect on the amounts recognized in the financial statements.

Classifying Investment Property and Owner-occupied Property. The Company considers a property as an investment property when the property generates cash flows which are largely independent of other assets held by the Company and a property as owner-occupied property when cash flows generated by it pertains not only to the property but also to other assets used for operations or administrative purposes.

A property may comprise of portions held for capital appreciation and portions used in operation or administrative purpose. If these portions cannot be sold separately, the property is accounted for as an investment property only if an insignificant portion is held for use in operation or for administrative purpose.

The Company classified its condominium unit under property and equipment.

Accounting for Lease Commitments – Company as a Lessor. Management exercises judgment in determining whether substantially all the significant risks and benefits of ownership of the assets held for lease are retained by the Company. Lease contracts where the Company retains substantially all the risks and benefits incidental to ownership of the leased item are accounted for as operating leases. Otherwise, these are considered as finance leases.

The Company, as a lessor, has entered into property leases where it has determined that it retains all the significant risks and benefits of ownership of those properties. As such, the lease agreements are accounted for as operating leases.

Rent income amounted to ₱0.8 million in 2015 (see Note 14).

Determining Significant Influence over MARC. When an entity holds 20% or more of the voting power (directly or through subsidiaries) on an investee, it will be presumed that the investor has significant influence unless it can be clearly demonstrated that this is not the case. If the holding is less than 20%, the entity will be presumed not to have significant influence unless such influence can be clearly demonstrated. A substantial or majority ownership by another investor does not necessarily preclude an entity from having significant influence.

The existence of significant influence by an entity is usually evidenced in one or more of the following ways:

- representation on the board of directors or equivalent governing body of the investee;
- participation in the policy-making process, including participation in decisions about dividends or other distributions;
- material transactions between the entity and the investee; interchange of managerial personnel; or

- provision of essential technical information

The Company has determined that it exercises significant influence over MARC.

Assessing Modification on the Terms of the Note Payable. The Company considers its note payable to be substantially modified if the present value of the cash flows under the new terms, including net fees paid or received and discounted using the original effective interest rate, is different by at least 10% from the discounted present value of remaining cash flows of the original liability. Such modification will result to derecognition of original liability and the recognition of a new liability.

On the other hand, if the difference does not meet the 10% threshold, the original debt is not extinguished but merely modified. In such case, the carrying value is adjusted by the costs or fees paid or received in the restructuring.

The Company assessed that there is no substantial modification on the terms of the note payable.

Determining Operating Segments. The Company determines and presents operating segments based on the information that is internally provided to the BOD. As at September 30, 2018 and December 31, 2017, the Company has determined that it has no operating segment other than being a holding company.

Estimates and Assumptions

The key estimates concerning the future and other key sources of estimation uncertainty at the reporting date, that has a significant risk of causing a material adjustment to the carrying values of assets and liabilities within the next financial year, are described below.

Estimating Allowance for Impairment of Due from Related Parties. The Company maintains allowance for impairment at a level considered adequate to provide for potential uncollectible due from related parties. The level of this allowance is evaluated by management on the basis of factors that affect the collectibility of the accounts. These factors include, but are not limited to, the length of the Company's relationship with the debtor, the debtor's payment behaviour and known market factors. The Company identifies and provides for specific accounts that are doubtful of collection and reviews the age and status of the remaining receivables and establishes a provision considering, among others, historical collection and write-off experience.

No allowance for impairment of due from related parties was recognized in September 30, 2018 and 2017. Carrying value of receivables amounted to ₱56.3 million and ₱58.7 million as at September 30, 2018 and December 31, 2017, respectively (see Note 12).

Assessing Impairment of Nonfinancial Assets. The Company assesses impairment on property and equipment and investment in an associate whenever events or changes in circumstances indicate that the carrying value of these assets may not be recoverable. The factors that the Company considers important which could trigger an impairment review include the following:

- significant underperformance relative to expected historical or projected future operating results;
- significant changes in the manner of use of the acquired assets or the strategy for overall business; and
- significant negative industry or economic trends.

The Company recognizes an impairment loss whenever the carrying value of an asset exceeds its recoverable amount. The recoverable amount is computed using the value-in-use approach. Recoverable amounts are estimated for individual assets or, if it is not possible, for the cash-generating unit to which the asset belongs. Determining such amount requires the estimation of cash flows

expected to be generated from the continued use and ultimate disposition of such assets.

No impairment loss was recognized in September 30, 2018 and 2017.

The carrying value of the Company's investment in an associate and property and equipment are as follows:

		September 30, 2018 (Unaudited)	December 31, 2017 (Audited)
	Note		
Investment in an associate	7	₱2,644,544,937	₱2,640,244,182
Property and equipment	6	43,561,478	45,093,324
		₱2,688,106,415	₱2,685,337,506

Estimating the Useful Lives of Property and Equipment. The Company estimates the useful lives of property and equipment based on the period over which the assets are expected to be available for use. The Company annually reviews the estimated useful lives of property and equipment based on factors that include asset utilization, internal technical evaluation, technological changes, environmental changes and anticipated use of the assets.

There is no change in the estimated useful life of the Company's property and equipment in September 30, 2018, and 2017. Carrying value of property and equipment amounted to ₱43.6 million and ₱45.1 million as at September 30, 2018 and December 31, 2017, respectively (see Note 6).

Assessing Realizability of Deferred Tax Assets. The Company reviews its deferred tax assets at each reporting date and reduces the carrying value to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax assets to be utilized.

Deferred tax assets were not recognized on NOLCO and MCIT as at December 31, 2017 and 2016 because the management believes that there will be no sufficient taxable profits against which deferred tax assets can be utilized.

The Company's unrecognized deferred tax assets amounted to ₱7.8 million and ₱6.7 million as at December 31, 2017 and 2016, respectively.

4. Cash

Legal Claims and Assignment of Litigation Cases

The Company is a co-defendant in a collection case for US\$1.5 million filed in the Los Angeles Superior Court by a foreign Merchant and its Philippine affiliate in 2012. The plaintiffs have alleged that they were not paid the charge cards availments that the Company processed under a Tripartite Merchants Agreements (TMA). Based on Company's records, however, payments due to the foreign merchant were wired to the latter's designated agent. The Company did not breach any regulatory or trade standards in complying with the TMA. The Company's management and its counsel believe that

the collection case is legally defensible, and any ultimate liability resulting therefrom will not materially affect the Company's financial position and results of operations. Moreover, under the Share Purchase Agreement dated October 18, 2013, the Sellers will indemnify the Company should the court adjudge the Company liable.

15. Financial Risk Management Objectives and Policies

The Company has risk management policies that systematically view the risks that could prevent the Company from achieving its objectives. These policies are intended to manage risks identified in such a way that opportunities to deliver the Company's objectives are achieved. The Company's risk management takes place in the context of day-to-day operations and normal business processes such as strategic planning and business planning. Management has identified each risk and is responsible for coordinating and continuously improving risk strategies, processes and measures in accordance with the Company's established business objectives.

Financial Risk Management Objectives and Policies

The Company's principal financial instruments consist of cash in banks, due from related parties and accrued expenses and other current liabilities (excluding statutory payables) and note payable. The primary purpose of these financial instruments is to finance the Company's operations. The main risks arising from the use of these financial instruments are credit risk and liquidity risk. Management reviews and approves the policies for managing each of these risks which are summarized below.

Credit Risk

Credit risk is the risk of loss that may arise on outstanding financial instruments should a counterparty defaults on its obligation. The Company's exposure to credit risk arises primarily from cash in banks and receivables.

Exposure to Credit Risk. The carrying value of cash in banks and receivables represent the Company's maximum exposure to credit risk in relation to financial assets.

Credit Quality. Credit risk arising from the inability of a counterparty to meet the terms of the Company's financial instrument is generally limited to the amount of the counterparty's obligations.

The aging analyses of financial assets as at September 30, 2018 and December 31, 2017 are as follows:

September 30, 2018 (Unaudited)					
	Neither Past Due Nor Impaired High Grade	Standard Grade	Past Due But Not Impaired	Past Due and Impaired	Total
Cash in banks	P389,731	P-	P-	P-	P389,731
Due from related parties	56,299,477	-	-	-	56,299,477
	P56,689,208	P-	P-	P-	P56,689,208

December 31, 2017 (Audited)					
	Neither Past Due Nor Impaired High Grade	Standard Grade	Past Due But Not Impaired	Past Due and Impaired	Total
Cash in banks	P605,059	P-	P-	P-	P605,059
Due from related parties	58,717,477	-	-	-	58,717,477
	P59,322,536	P-	P-	P-	P59,322,536

High grade financial assets are those financial assets from counterparties with good financial condition and with relatively low defaults. Standard grade financial assets are those financial assets that are collected on their due dates without an effort from the Company to follow them up.

Cash in banks are with reputable financial institutions duly approved by the BOD.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to settle or meet its financial obligations when they fall due. The Company aims to maintain flexibility by maintaining sufficient cash to meet all foreseeable cash needs.

The tables below summarize the maturity profile of the Company's financial liabilities as at September 30, 2018 and December 31, 2017 based on contractual undiscounted cash flows.

	September 30, 2018 (Unaudited)			Total

*Excluding statutory liabilities

Cash in Banks, Due from Related Parties and Accrued Expenses and Other Current Liabilities (excluding Statutory Payables). The carrying values of cash in banks, due from related parties and accrued expenses and other current liabilities (excluding statutory payables) approximate their fair values due to the short-term nature of the transactions. The fair value measurement of current financial assets and liabilities is classified as Level 3 (significant unobservable inputs).

Note Payable. The carrying value of payable to TMEE approximates its fair value, because the effective interest rate used for discounting the payable approximates the current market rate of interest for similar transactions.

16. Capital Management Objectives, Policies and Procedures

The Company's capital management objectives are to ensure the Company's ability to continue as a going concern and to provide an adequate return to shareholders. The Company manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Company may return capital to shareholders or issue new shares.

There has been no change in the objectives, policies and processes in 2018 and 2017.
